This Nedis bridge splits your eARC signal into ARC and eARC. It supports the latest HDMI™ high-bit rate audio formats (192kHz) including DTS Master, DTS:X, Dolby TrueHD, Dolby Atmos and more...to User's Home Entertainment devices.

Video streaming services are available on your Smart TV via TV apps. If your TV does not support high-bit rate audio formats then you can transfer your streaming signal from your TV to the ACON3435AT, which will transfer the high-bit rate audio signals to your eARC supporting audio device. Such as eARC soundbar or receiver.

Note: For this product you need Ultra High Speed HDMI™ cables. These cables are able to support the high bandwidth which eARC needs.
