Wireless and Universal

The Trust Ducon Dual Connect Wireless Mouse is designed to connect to any laptop or PC. The mouse allows you to control your computer in comfort and freedom, with a wireless range of 8 meters.

Feel the Connection

The micro-receiver is the key to connecting the mouse to any laptop or PC. With a USB-C connector on one side and standard USB on the other, it will easily connect to any computer, including MacBooks that only have USB-C ports. After use, you can store the receiver in the mouse.

A Comfortable Grip

The textured sides and rubber coating make the Ducon mouse easy to hold firmly in your hand without it slipping. You'll be working comfortably, no matter where you use the mouse.

Adjust Your Speed

The mouse is equipped with a cursor speed button that lets you change the DPI between 800 and 1600. Choose between increased speed or increased precision, or change on the fly depending on the situation.
