

40m Fibre Optic Hybrid DisplayPort 1.2 Cable

No.: 38464

Long distance digital AV Connection

Description

- Create a longer distance connection between a DisplayPort source and display
- Copper and fibre optic hybrid construction for uncompressed signals and high EMI & RF resistance
- Supports resolutions up to 4K@60Hz 4:4:4 10bit
- DPCP support to ensure maximum compatibility
- 2 Year Warranty

Lindys range of Fibre Optic Hybrid DisplayPort cables are a high quality, advanced solution for creating longer length DisplayPort connections, not possible with standard copper only cables while also offering a lower cost alternative to fibre optic extender systems that can be directly connected to the source and display, with no requirement for additional cabling.

With a premium fibre and copper hybrid construction, signals are transmitted with no degradation, while also providing resistance to electro-magnetic and radio-frequency interference, perfect for integration into high noise environments including industrial or retail settings.

Support for resolutions up to 4K@60Hz and HDR ensures video can be viewed with flawless quality, enhanced brightness and a wider colour gamut, ideal for eye-catching digital signage in retail or engaging educational content in universities.
