- Philips Headphones app. Control noise cancelling and more
- Touch controls. Supports your favourite voice assistants

PHILIPS

True wireless sports headphones
Premium sound Noise Cancelling Pro, Crystal-clear calls, Reliable in-ear fit

TAA7507BK/00

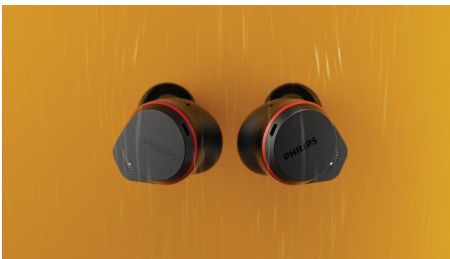

Highlights

28 hours play time with case

Don't want to worry about daily charging? You get 7 hours play time and an extra 21 hours from the case. Pop the earbuds back in the case and they'll recharge fully in 2 hours—if you need a quick boost, just 15 minutes gives you an extra hour. The case can be charged wirelessly or via USB-C.

Crystal-clear calls

Need to take a call while you're out on a run? With these headphones, there's no need to take cover from the wind. When you're on a call, two AI mics and a bone-conducting mic combine to clearly transmit the sound of your voice.

IPX5 water protection

An IPX5 rating means that these headphones don't mind a drop of rain or a downpour, so

they'll never give you an excuse to stay on the couch! If you get a sweat on in the gym, the headphones won't mind that either.

Noise Cancelling Pro

Busy gym? Noisy train? Multiple mics and advanced audio processing filter out external noise. Adaptive noise cancellation automatically senses what you're doing and adjusts environmental sound levels accordingly, so you'll always hear your music.

Premium sound

These true wireless headphones boast detailed sound with rich, clear bass—courtesy of graphene-coated drivers that reproduce every sparkling high and weighty low. iOS or Android, you'll enjoy all the immersion you need to keep your energy up—and the music pauses if you take an earbud out.

Reliable in-ear fit

Hit your targets, beat your best or run for fun. Doesn't matter why you move—these headphones stay right in your ears where you want them. Because no two ears are the same, you get three interchangeable sizes of in-ear tips and stabilisers, which you can mix and match for your perfect fit.

Hi-Res Audio Wireless

Whichever streaming service you use, these Hi-Res Audio Wireless-certified headphones will unlock the best possible sound. The codec that works best with your phone or tablet is selected automatically. Whether you use iOS or Android devices, you'll enjoy a superbly detailed listening experience.

Philips Headphones app

You can use the Philips Headphones app to adjust the level of noise cancellation or activate wind cancellation—and the app lets you update your headphones with the latest software. An equaliser lets you fine-tune your sounds to fit your workout.

Simple control

Touch controls keep things simple, and helpful confirmation tones let you know you've activated a function. Siri and the Google Assistant are both supported, and you can connect to two devices at once. Great if you're streaming music from a phone and getting training alerts from your smartwatch.

Specifications

Sound

- Impedance: 25 Ohm
- Speaker diameter: 9.2 mm
- Sensitivity: 100 dB (1 kHz)
- Frequency range: 20 - 40,000 Hz (LDAC)
