

Wall Charger

OnCharge 100ACC

Our OnCharge 100ACC is the ultimate wall charger for the modern multi-device lifestyle. With its cutting-edge GaN technology, this compact powerhouse can deliver up to 100W of charging capacity across four ports – enough to power up your laptop, phone, tablet, and earbuds all at once.

Featuring three USB Type C ports and a USB (A) port, the OnCharge 100ACC is as versatile as it can be. Whether you're fast-charging your smartphone, powering up your laptop, or keeping your accessories at 100%, this charger has the capacity to handle it all with ease.

And while it's busy delivering ultra-fast charging speeds, it's also keeping your devices safe. With four layers of protection, including Overvoltage (OVP), Overheating (OHP), Overcurrent, and Short Circuit Protection, you can trust it to keep your gear running smoothly. Besides, it's CE RoHs and ERP compliant, so you know it meets all the top-notch safety and efficiency standards.

Don't let its power fool you: this wall charger is impressively compact and travel-friendly, which is perfect for both home use and on-the-go adventures. And with a designated EU plug, it's ready to connect anywhere adventures take you.

GaN TECHNOLOGY

Powered by next-gen Gallium Nitride (GaN) technology, the OnCharge 100ACC delivers high efficiency in a very compact design. GaN components generate less heat and perform better than traditional chargers, providing powerful performance in a sleek package.

HIGH SPEED CHARGING 100W

Supercharge your devices with up to 100W of super-fast power. Whether powering up your laptop or quickly topping off your smartphone is in the plans, the OnCharge 100ACC makes your devices ready to go in record time.

CHARGE UP TO 4 DEVICES SIMULTANEOUSLY

Bid farewell to outlet battles. With three USB Type C ports and a USB (A) port, this charger handles multiple devices at once: smartphones, tablets, laptops, earbuds, and anything else you need.

ULTRA COMPACT

Despite impressive power capabilities, this charger is all about portability. Thanks to the ultra-compact design, it fits easily in your bag or pocket and makes a perfect travel companion.

4 PORTS

More ports mean more possibilities. With three USB Type C ports for modern devices and a USB (A) port for legacy ones, you have all the flexibility to power up everything in your tech arsenal.

UNIVERSAL COMPATIBILITY

From laptops to smartphones, tablets, and more, the OnCharge 100ACC works seamlessly with any device. Its universal compatibility means you only need one charger for everything.

HIGH PROTECTION

Keep your devices safe with four layers of advanced protection: Overvoltage (OVP), Overheating (OHP), Overcurrent, and Short Circuit Protection. The OnCharge 100ACC is designed to protect your devices and your peace of mind.
