

XV 2 SL

Colour:	black
Article ID:	3850318-7000
Weight:	970 g
Volume:	19 litres
Size:	52 / 30 / 20 (H x W x D) cm
MSRP:	89,95 €

The athletic daypack with a completely revised Airstripes back system convinces with its excellent carrying comfort and maximum ventilation. Especially its minimalistic style and many functions make the new XV2 the new urban trend setter. Front and main compartment offer enough space for everything you need while commuting, in the office or for trips around the city.

HIGHLIGHTS OF XV 2 SL

SL Women's Fit

On average, women's backs are not quite as long as men's. The SL carry system is thus slightly shorter than that of Deuter's standard rucksacks.

Airstripes System

A bike pack always has to sit secure and snug on your back – even on the roughest rides. Our unique Airstripes System takes care of that and offers effective ventilation. It consists of two contoured, air-channelled foam profiles that are covered with a highly breathable Wide AirMesh lining. The reduced contact surface results in an optimized fresh air circulation. Also, the pack's load is kept close to the body and thus won't throw the rider off balance.

Sternum Strap

The sternum strap stabilizes the pack on the shoulders.

Valuables Pocket

special pocket on the inside of the pack to keep valuable items safe

Compartment for documents

special compartment for travel documents

BACK SYSTEM: AIRSTripES SYSTEM DAYPACK

- 1 **OUTSTANDING AIR CIRCULATION**
means less sweating: Two air channeled foam strips and an air mesh cover ensure as little back contact as possible.
- 2 **FITS LIKE A GLOVE**
through ergonomically cut S-shape shoulder straps.
- 3 **ADDITIONAL STABILITY FOR HEAVY LOADS**
provides a detachable waist belt. (Step Out 22, Walker 24, Graduate)
- 4 **HIGH CARRYING COMFORT**
guarantees the bilaminate construction made from one soft and one firm layer of foam.

MATERIAL

600D PES

Made from 600 den Polyester thread and with a thick PU coating, this multi-purpose fabric is robust and lightweight. It is most suitable for backpacks, used in average conditions to keep the weight to a minimum.
