

S25-V2

The S25-V2 is a versatile ATX case designed for modern systems, focusing on functionality and flexibility. Pre-installed PWM fans, support for 360 mm radiators, and an external 5.25" drive bay provide a wide range of options for cooling and expansion. The overall package is complemented by a USB Type-C port and a practical dust filter.

Features

■ CLEAN DESIGN FOR VERSATILE SYSTEMS

With its deliberately understated exterior, the S25-V2 blends seamlessly into a wide range of setups while focusing on functionality and flexibility. The structured interior layout ensures a tidy build process and offers ample space for modern hardware components.

■ EFFICIENT COOLING AS STANDARD

The S25-V2 comes equipped with two pre-installed 120 mm PWM fans to ensure reliable airflow right out of the box. In total, up to seven fans can be installed. Additionally, the case supports the installation of a 360 mm radiator, providing suitable cooling options even for high-performance systems.

■ FLEXIBLE EXPANSION OPTIONS

With an external 5.25" drive bay at the front, the case offers a practical expansion option for compatible drives or accessories. This keeps the system flexible and allows for the continued use of classic components.

■ MODERN CONNECTIVITY WITHIN REACH

The I/O panel is equipped with a USB Type-C port as well as two USB 3.0 ports, allowing quick and convenient access to modern peripherals.

■ CLEAN OPERATION WITH DUST PROTECTION

A pull-out dust filter at the bottom can be easily removed and cleaned, ensuring convenient maintenance. Additionally, a magnetic dust filter on the top panel provides extra protection and can be removed just as easily for cleaning.

■ WELL-DESIGNED INTERIOR

The S25-V2 offers installation options for up to two 3.5" or four 2.5" drives. Graphics cards with a length of up to 38 cm, CPU coolers with a height of up to 17.2 cm, and power supplies with a length of up to 22 cm can be installed without any issues.
