

Introduction

One T-Wings provides users with two systems, which saves installation space and speeds up user productivity. The main system supports the maximum motherboard size EATX for high-profile computer games, and the sub-system is ITX motherboard. When the streamer is playing the game that can monitor the live status of the game and interact with fans instantly. It provides high heat dissipation, high expansion and high transparency.

Features

Dual 3.0 USB Ports
For high speed transferring

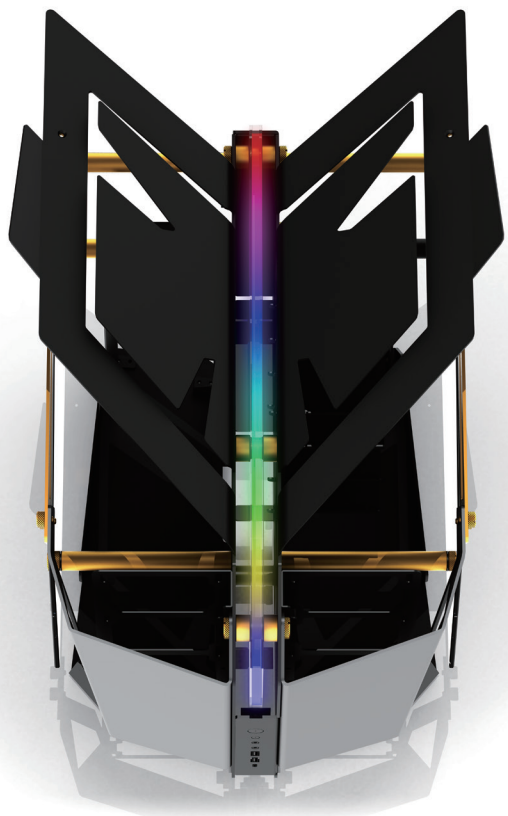

Supports type C connectors

Water Cooling Support
Supports dual 360mm radiators

- Dual chambers for dual water cooling systems
- Anodized aluminum frame flanked by symmetrical wings for a perfect combination of dynamics and aesthetics
- Supports dual 360mm radiators to your preference
- Special cable shroud design for a tidy look
- Translucent tempered glass panels
- ARGB lighting effect control
- Supports type C connectors

Product Overview

Symmetrical Wing Design for High Level Players

T means twins, T-wings with Symmetrical Design for modders to show up your rigs from 360 degree. Characterized by the bat's wing shape, T-wings designs in the symbolic pattern means extremely flexible like bat's wing to create the airflow and stylish.

PC CASE
T-WINGS

Open-air frame with Aluminum

The aluminum frame gives the case an impression of being closed in. However, the wide open gaps are going to offer a ton of space for heat to escape.

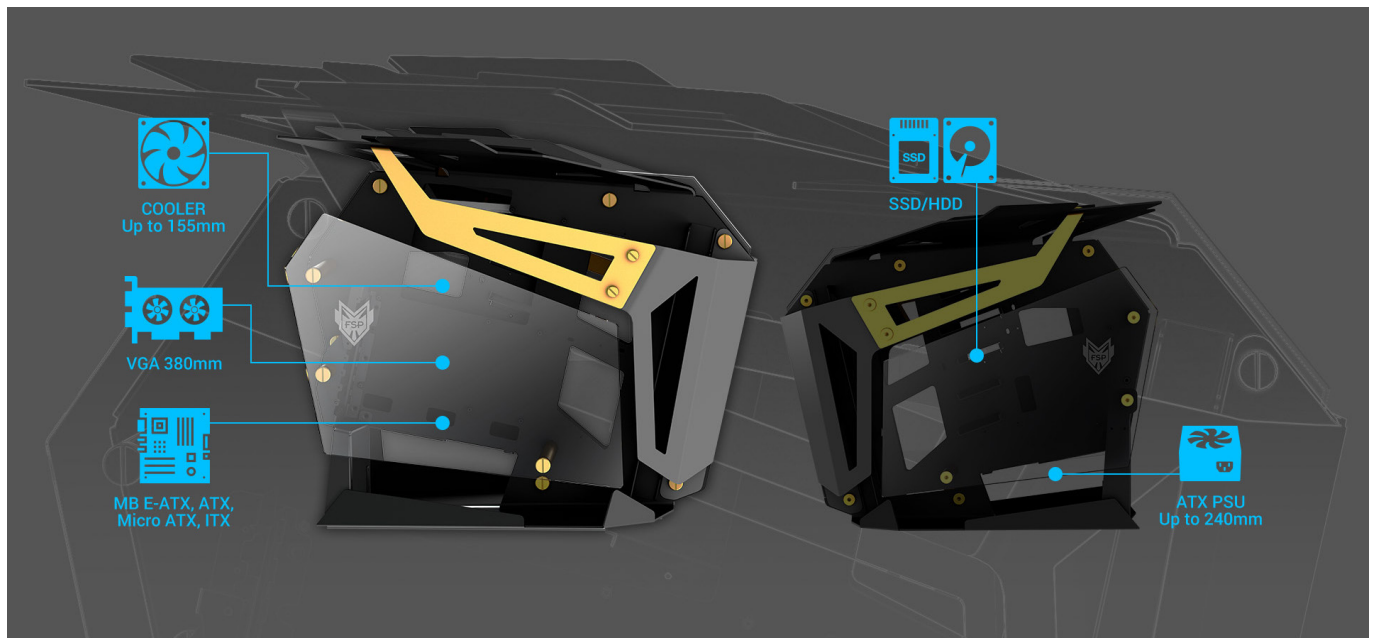

Product Overview

Dual liquid cooling systems, Double Power

One system for gaming computer can be mighty, but sometimes one is not enough. T-wings provides the perfect solution for players to use two computers in the same case, one is the high level build for latest games' computing demands; and another is entry PC for doing anything else such as streaming or surfing websites.

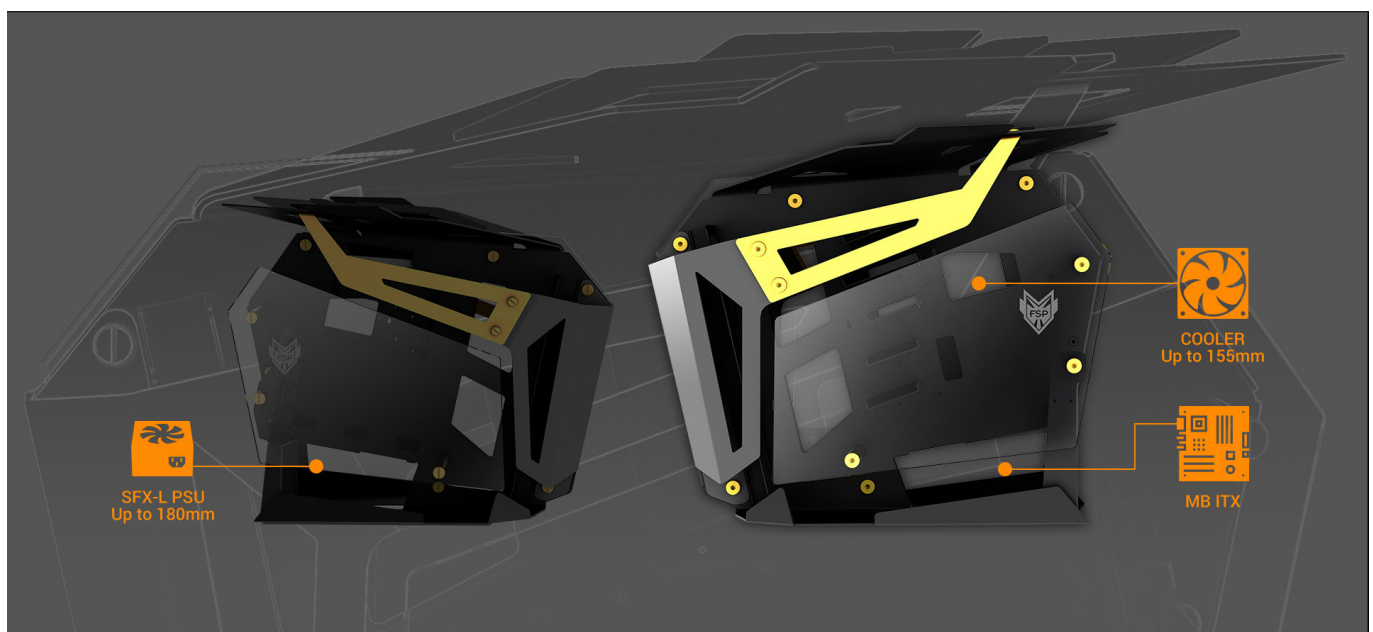

Main Systems

Supports E-ATX, ATX, M-ATX, ITX motherboard / ATX PSU

Sub Systems

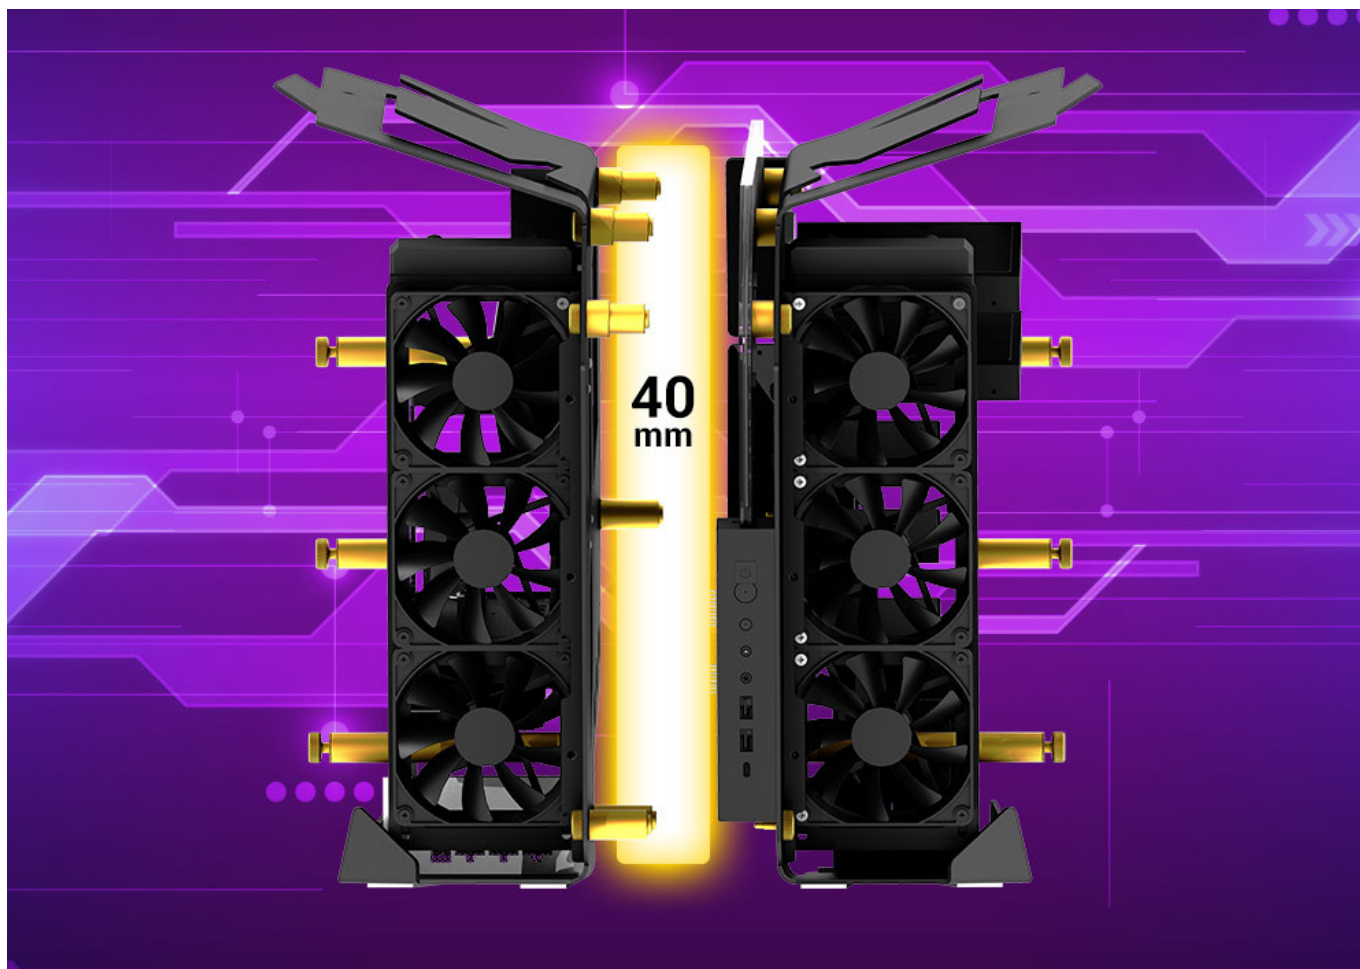

Supports ITX motherboard / SFX-L PSU

Product Overview

Intuitive Cable Management

The cable management space is perfectly placed in the center of the design.

5mm tempered glass panels

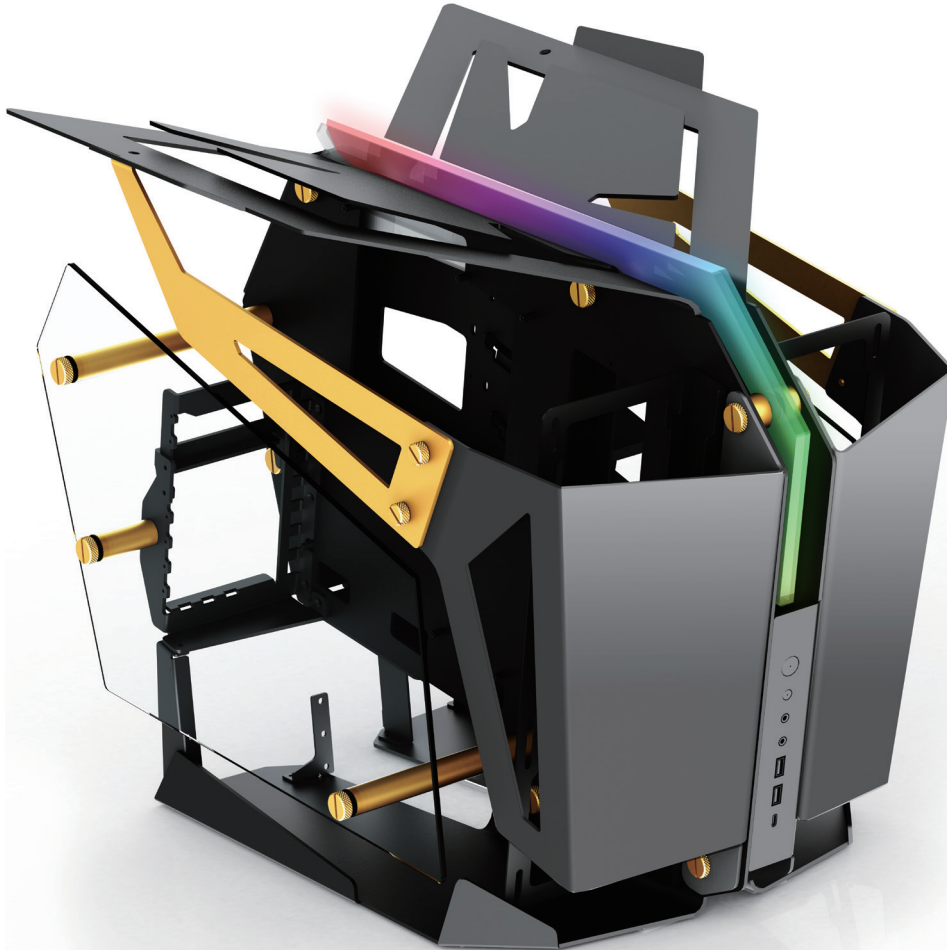

Supports USB type C

Vertical and horizontal VGA installation

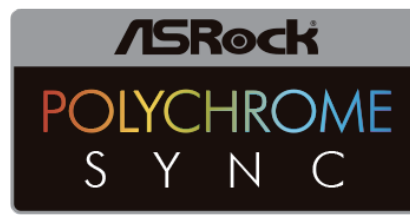

Product Overview

Sync with Most Motherboard

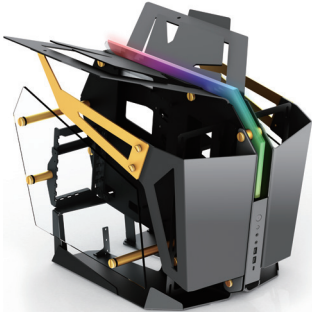

The addressable RGB light bar between the two frame is compatible with most motherboards, such as ASRock Polychrome Sync, Asus Aura Sync, Gigabyte RGB Fusion, and MSI Mystic Light Sync.

Supports RGB Sync for most motherboards

Specifications

			
Model		CMT710	
Type		Aluminium/Glass Open Frame Case	
Color		Black & Gold / Black & Red	
Materials		Aluminium, 5mm Glass	
Dimensions (D x W x H)		634 x 455 x 530mm	
MotherBoard Support		Two Motherboard MB1 : E-ATX, ATX, Micro ATX, ITX MB2 : ITX	
External I/O port		Type-C, USB3.0 x 2, HD Audio	
Maximum CPU Cooler Height		155mm	
VGA Card Length		380mm	
Expansion Slots		8	
Power Supply Type		Two PSU PSU 1 : 240mm ATX PSU PSU 2 : SFX-L PSU	
Drive Bay	3.5" HDD	3	
	2.5" SSD	2	
Max Radiator Support		360mm x 2 (optional)	

PC Case T-Wings
