

AIR FRYER 9L WHITE

Model: 4630/03
Code: 00C463003AR0
EAN: 8003705122727

With the **air fryer 9L** you can fry huge quantities of any dish you want using only a tablespoon of oil to obtain both healthy and tasty fried dishes. Thanks to the large removable basket of 9 L, you will be able to cook **up to 3.5 kg of fries at once**! Fries, but not just that, also croquettes, fish, meat and so much other breaded food, whether frozen and ready to fry or fresh and recently breaded, thanks to the 8 preset programs.

How does the air fryer work?

The air fryer cooks thanks tohigh **temperature air, of up to 200°C**, which circulates at maximum velocity and at 360° inside the cooking chamber and grants a **uniform distribution of heat** in its interior. It is the hot air that allows an homogeneous cooking of the dishes and the presence of a crispy crust, just as good as traditional frying. Thanks to the hot air, it won't be necessary to add so much oil to obtain tasty fried food, because **just a tablespoon will suffice**; this way you will bring to the table lighter dishes, but tasty for the whole family.

From the large **touch screen panel** you can adjust cooking times, programs, temperature and timer. In the interior there is a tray for crispier and tastier recipes. It comes with a **transparent basket** to check the cooking as a real oven: frying is right in your hands! With the air fryer 9L you can select the Grill

function ideal for grilling meat, fish and vegetables at maximum temperature to obtain crunchier dishes.

Air fryer 9L **is easy to clean** thanks to the non-stick basket with grill and it has a low environmental impact, because it doesn't produce waste oil, one of the most difficult waste to dispose of.

Product specifications
