

Product name: ENDORFY Solum T
Product code: EY1B002

The ENDORFY Solum T is going to be your new best friend — whether you plan to discuss wild fan theories through the night or record your next viral video. It's [cardioid](#), so it only records in front of the mic, giving you a detailed and warm sound without frustrating background noise.

Included with the ENDORFY Solum T, you get a sturdy tripod with a [built-in](#) anti-shock mount. It'll protect your microphone from unwanted vibrations, soaking them up like a vibranium shield. And to take your audio to an even higher level, we also included a foam pop filter to keep these pesky explosive consonants in check.

Hey, listen!

The Solum T is a ~~personal assistant~~ [microphone](#) that captures your every word — flawlessly. Fine-tuned for speech, it records warm and nuanced audio without the background noise, making it seem like you're sitting right next to your listeners.

Talk about a personal connection with your community!

That's thanks to the cardioid characteristic — it picks up sound only in the front of the microphone. Additional clarity points are added through the included pop filter that blocks the "explosive" consonants.

Superhero with a ~~trident~~ [tripod](#)

Sometimes we joke that the Solum T is a superhero with a ~~trident~~ [tripod](#). But all jokes aside — it comes with a stable tripod, holding the mic in the chosen position while keeping it mobile and not taking much space. A perfect option for those who don't want to commit to a permanent setup.

To help you get to the next audio level, we built into the tripod an anti-shock mount that helps isolate the microphone from the vibrations carried through the desk whenever you slap it in anger.

Plug & play [talk](#)

Setting up the Solum T is not rocket science. The microphone comes with [everything](#) you need already included — mount it, plug it into your computer and you're good to go. Enjoy the new, superior quality of your audio!

Connect the microphone within seconds with the included [USB-C](#) cable — it's compatible with the most popular operating systems: Windows, macOS, and Linux.

ENDORFY Solum T – main features:

- High-end shock mount
- Foldable tripodstand
- USB Plug&Play
- Crystal clear sound

ENDORFY Solum T – technical specifications:

- Product code: EY1B002

- EAN: 5903018665184
- Product type: microphone
- Colour: black
- Dimensions: 147.5×42.7×47 mm
- Microphone type: condenser
- Directivity: cardioid
- Bit depth: 16 bit
- Sampling rate: 48 kHz
