

SANI 400 MIRROR WIFI

The Eurom Sani 400 Mirror Wifi is the perfect addition to your bathroom. Not only is this a nice infrared heating panel, it is also a mirror. Because the heating is in the mirror, your mirror does not fog up, and because the Sani 400 Mirror has a power of 400 Watts, your bathroom will also be wonderfully warm.

Using the Sani 400 Mirror Wifi is easy. You can easily set the temperature with the control panel in the mirror. Would you rather not switch the panel on and off every time? Then set the handy weekly timer in the app.

Product number	350418
EAN	8713415350418
Powered by	electric
Power	400 W
