Delock HDD Dockingstation SATA > USB 2.0 / eSATA + 6 Port USB HUB

Description

This HDD dockingstation enables an external connection of a 2.5″ or 3.5″ SATA HDD via USB and eSATA and offers stable hold for your hard disk. This solution does not require any external enclosure since you can just plug in the HDD only into the dockingstation. The included USB and eSATA cable can be used for connection to a free USB or eSATA port. Furthermore the dockingstation provides a 6 port USB hub for using additional USB devices like adapter or card reader. Due to the One-Touch Backup function you can easily synchronize your data just at the push of a button, when the dockingstation is connected to USB.
