The small-sized TELESTAR DIRA M 11i + represents state-of-the-art radio technology: It receives digital DAB+ radio, analogue FM radio as well as over 25.000 internet radio stations. Although small-sized, the DIRA M 11i + creates a solid sound experience thanks to the full range speaker featuring 15W output power and an equalizer to adjust your individual preferences. Besides Bluetooth audio streaming, both receiving and transmitting, the device also supports the newest EWF (Emergency Warning Functionality) radio warning system and Journaline

Radio text functionality. The DIRA M 11i + is UPnP and DLNA compliant and comes with a versatile USB media mode, supporting play back of different types of data/files as well as USB recording. Many user-friendly features like an alarm clock, sleep timer, multilingual menu, streaming services (like Deezer, Tidal, Napster, Amazon music, etc) and favourite buttons on top of the device complement the list of great features and make the TELESTAR DIRA M 11i + an outstanding and very versatile digital radio fitting in every situation.

Highlights

- Small-sized hybridradio (DAB+/ FM and internet radio in one device) featuring powerful sound
