# POWERplus® Jaguar

Solar - USB powered  
POWERBANK-CHARGER / SPEAKER  
Mobile Pouch

The POWERplus® Jaguar is a 3 in 1 product which combines different accessories for your mobile device in one product:

- Powerbank - charger for 5V mobile equipment
- External speaker
- Mobile pouch for your cables, adapter tips etc.

The 2 speakers with 3W output guarantees a much better audio experience on your mobile phone and other mobile devices than the built-in speakers of these devices.

Furthermore the built-in rechargeable Lithium battery can be charged by the integrated solar cell or by USB and this battery powers the speakers and functions as powerbank to charge your mobile 5V devices.

With the integrated battery check, you can monitor the status of the battery capacity.

Mobile accessories storage pouch

Powerful solar cell with charging indication

Integrated 2 x 3W speakers

Mobile phone charging

## Technical details

Item	Parameter	Unit
Internal battery	3.6	V
