EUD62NPN-IP/110-240V

Universal dimming actuator IP via Wi-Fi. Apple Home certified, REST-API and "built for Matter". With power MOSFET. Dimmable 230 V LED lamps in 'phase cut-off' mode up to 300 W or in 'phase control' mode up to 100 W depending on ventilation conditions. 230 V incandescent lamps and halogen lamps up to 300 W depending on ventilation conditions. No minimum load. Only 0.7 watt standby loss.

For installation. 49 x 51 mm wide, 25 mm deep.

The terminals are plug-in terminals for conductor cross-sections of 0.2 mm² to 2.5 mm².

Zero passage switching with soft ON and soft OFF to protect lamps.

Supply voltage, switching voltage and control voltage local 110-240 V.

The brightness level is stored on switch-off (memory).

If supply voltage fails, the device is switched off in defined mode.

Automatic electronic overload protection and overtemperature switch-off.

With control input for a mains voltage control button that may be installed in front of it.

Glow lamp current is not permitted.

The Wi-Fi link uses the 2.4 GHz frequency band and permits **Over-the-Air updates (OTA)**. This actuator is Apple Home certified and can be officially controlled directly via the Apple Home app and Siri. No additional controller or gateway are required:

The Apple Home app offers the following functions:

- Create if-then automations including geofencing
- Manual switching
- Call up status

An Apple controller, e.g. HomePod mini, is required for remote access.

As an option, the actuator can be configured via the Eltako Connect app.

A development version of the REST API is available through the device's online product page. This is continuously being further developed.

The actuator meets all the specifications for the Matter standard, is "built for Matter" and is in the Matter certification process.

EUD62NPN-IP/ 110-240V	Universal dimming actuator IP via Wi-Fi, up to 300 W Apple Home certified, REST-API and "built for Matter"	Art. No. 30062002	82,10 €/pc.
