

MK7 ARGB

With a chic covering of fabric under the tempered glass on the side and front, the MK7 ARGB will give your gaming hardware a special touch of elegance – and, at the same time, take up the minimal amount of space. And thanks to three pre-installed ARGB fans and a special side-panel air intake, the case not only looks good but also ensures a breath-taking airflow at all times. The micro-ATX case also provides modern connections, broad compatibility with BTF mainboards, and plenty of space for high-performance hardware.

Features

- MODERN DESIGN WITH GLASS LOOK AND CHIC SPLASH OF FABRIC**
 Thanks to its modern design with a glass front and side, the MK7 ARGB is the perfect showcase for hardware, while a particularly elegant touch is provided by the fabric covering around the underside of the case.
- GOOD LOOKS AND GOOD AIRFLOW**
 Three 120 mm ARGB PWM fans are already installed inside the MK7 ARGB. To ensure an optimal cooling for hardware components, two of the fans have a reversed airflow that draws air into the case from the side. The case offers room for up to eight fans.
- DUAL-RADIATOR OPTION**
 Of course, if you want to operate your MK7 ARGB with a water-cooling system, you can install a 360 mm radiator – and there will even be room for an additional radiator of up to 240 mm.
- ALSO FOR BTF MAINBOARDS**
 The MK7 ARGB supports the new BTF format as well as being compatible with conventional mini-ITX and micro-ATX mainboards.
- IDEAL CONNECTION OPTIONS**
 With its modern ports for TRRS and USB-C, the MK7 ARGB provides a wide range of possibilities for connecting. An RGB controller also enables the connection of up to four LED components and four PWM fans.
- DESPITE SMALL FORM FACTOR, PLENTY OF HARDWARE SPACE**
 With a maximum card length of 41 cm, the MK7 ARGB has room for large graphics cards and offers additional support for the installation thanks to a rubberized graphics card holder. CPU coolers can be up to 17 cm in height and power supply units can have a length of up to 23.5 cm. Inside the case, up to two 3.5" HDDs or three 2.5" SSDs can also be accommodated.

Specifications

Product Name	MK7 ARGB
Form Factor	Micro-ATX
Expansion Slots	5
Interior Painting	✓
Tool-Free Devices Installation	✓
Cable Management System	✓
Side Panel	Tempered Glass
Graphics Card Holder	✓
Color Versions	Black, White
Dimensions (L x W x H)	43.5 x 22.5 x 44.5 cm

Max. Drive Bays

2 x 3.5" | 3 x 2.5"

I/O

Type-C (USB 3.2 Gen 2): 1 | USB 3.0 (Left): 2 | Audio (Left): TRRS

Fan Configuration

Side Panel	2x 120 mm ARGB PWM Fan (Pre-installed) or Radiator* (Optional)
Rear Panel	1x 120 mm ARGB PWM Fan (Pre-installed)
Top Panel	3x 120 mm or 2x 140 mm Fan or Radiator (Optional)
Bottom Panel	2x 120 mm Fan (Optional)
PWM Fan Hub	4-Port

RGB Compatibility

Type	Addressable
Ports	4
Manual Control	22 Modes
Mainboard Compatibility	MSI Mystic Light Sync, ASUS Aura Sync, Gigabyte RGB Fusion Ready, ASRock Polychrome Sync
RGB Pinout	5V-D-coded-G

Compatibility

Mainboard	Mini-ITX, Micro-ATX (BTF)
Max. Length Graphics Card	41.0 cm
Max. Height CPU Cooler	17.0 cm
Max. Length PSU	23.5 cm
Max. Height Radiator incl. Fan (Top)	6.0 cm

Package Contents

MK7 ARGB, Accessory Set

EAN Code

MK7 ARGB Black	4044951044313
MK7 ARGB White	4044951044245

* A graphics card length of more than 26 cm may conflict with radiator installation on side panel
