RUN LIKE A FLASH, KEEPING THEM IN PLACE

The ***TWS Runner Flash earphones*** are the perfect training companions if you love sport. This product guarantees extreme comfort during your training session: the headband, whilst not external like the other models in the range, ensures maximum stability. The **pocket-sized charging case** allows you to store the sports earphones **and to charge them up to five times**.

FREE TO MOVE AROUND

Train without worrying about your earphones falling off accidentally. The Runner Flash earphones are equipped with a small **silicone headband** to make sure the earphones fit your ears snugly. The product also comes with three **pairs of different sized earbuds** (S, M, L) so that you can choose the most comfortable solution for your needs.

NO WIRES

Take your smartphone with you on your sports training: just connect the **wireless earphones** to your smartphone by going to the Bluetooth settings; thanks to TWS (True Wireless Stereo) technology, they will automatically connect to each other.

The Runner Flash earphones are equipped with **multifunctional buttons to manage your music and calls**. You can speak to whoever calls you, thanks to the built-in microphone. Have fun while you train and answer any calls from friends, family or colleagues as soon as they contact you: exercise with no wires or tangles.

PROTECTION AND CHARGING: ALL IN ONE CASE

Once you've finished using your earphones, you can put them back in their practical, pocket-sized case and they **will turn off automatically**. They will turn on again as soon as you take them out, **without pressing any buttons**.

The base also acts as a charger: thanks to its 650 mAh capacity, you can charge your Runner Flash earphones up to five times. The case is in turn charged using the **USB-Micro USB cable** included with the product.
