

ALUTHERM 2500 WIFI

The Eurom Alutherm 2500 Wifi is a smooth convector that fits in any home. With 2000 Watts power this heater can warm up to 100 m³, perfect for in the living room, bedroom or the office. The heater is connected to the wall, and is therefore perfect as permanent heater.

The thermostat measures if the desired temperature is reached. It is possible to control the Alutherm 2500 Wifi with the Eurom Smart App. It is even possible to connect multiple heaters to each other.

There are different manuals for this product, depending on when the item was produced. This is based on batch numbers: numbers with 6 positions, always starting with 1 or 2 letters. For example: AI0145 or B00263. The batch number can be found on your product on the technical data label on the back or bottom of the product.

Product number	360790
EAN	8713415360790
Powered by	electric
Power	2500 W
Power selection	3
Connection voltage	220-240/50 V/Hz
Element	X-shape aluminium
Control	control panel, remote control, Eurom Smart App
