In addition, it offers three USB 3.0 ports, where one port (5 V / 1.5 A) also provides a charging function for mobile devices. The USB interfaces are supplemented by a USB-C™ with power delivery (PD 2.0) functionality. Two card readers are also built in (MicroSD, SDHC, SDXC/MMC). Your notebook can also be connected to your network via cable over the Gigabit Ethernet port. We top everything off with a stereo audio port. Extend your notebook to 11 additional ports using only one USB-C™ port - with the DIGITUS® multifunctional Universal Docking Station USB Type-C™.
