Achtung!

Technische Geräte stellen einen beträchtlichen Wert dar. Sie sollten daher bei der Installation vorsichtig mit den Komponenten umgehen und diese bei Bedarf schützen.

Auch sollte, falls nötig, der Installtionsbereich abgesichert werden. Herabfallende Teile können zu Verletzungen und Materialschäden führen.

Die im Lieferumfang enthaltenen Materialien sind unter Umständen nicht für die speziellen Gegebenheiten am Installationsort geeignet. Bitte prüfen Sie dies vorab und ersetzen Sie diese bei Bedarf durch geeignete Materialien. Für Schäden, die durch eine unsachgemäße Installation entstehen, übernehmen wir keine Haftung.

Falls Sie Bezüglich der Angaben in dieser Installationsanleitung unsicher sind oder noch Fragen haben wenden Sie sich an uns oder anderes ausgebildetes Fachpersonal.

Caution!

Technical devices are of considerable value. You should therefore handle the components carefully during installation and protect them if necessary.

If necessary, the installation area should also be secured. Falling parts can cause injuries and material damage.

The materials included in the scope of delivery may not be suitable for the specific conditions at the installation site. Please check this before and replace them with suitable materials if necessary. We accept no liability for damage caused by improper installation.

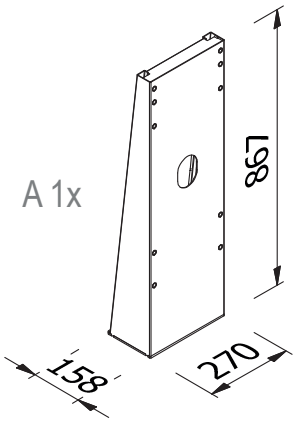

If you are unsure about the information in these installation instructions or have any further questions, please contact us or another qualified professional.

Bitte beachten! | Please note!

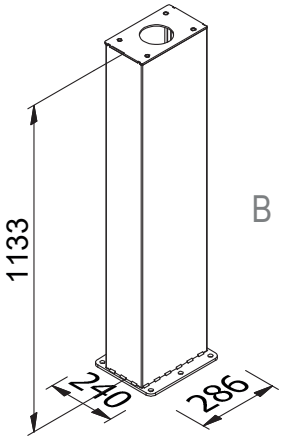

Outdoor-Produkte unterliegen abhängig von den Umgebungsbedingungen einem natürlichen Alterungsprozess. Regelmäßige Sichtprüfungen und die Reinigung der Oberflächen sind Bestandteil eines ordnungsgemäßen Betriebs. Für Installationen in unmittelbarer Küstennähe oder anderen besonders korrosiven Umgebungen empfehlen wir eine projektspezifische Abstimmung vor der Installation, um eine geeignete Material- und Oberflächenausführung sicherzustellen.

Outdoor products are subject to a natural ageing process, depending on the environmental conditions. Regular visual inspections and cleaning of the surfaces are part of proper maintenance. For installations in the immediate vicinity of the coast or in other particularly corrosive environments, we recommend project specific consultation prior to installation to ensure that suitable materials and surface finishes are used.
