

USB-0402, Gigabit USB-C Network Adapter

Product Images

Short Description

- 10/100/1000Mbps wire speed transmission and reception
- Built-in Wake-on-LAN feature to startup computers remotely
- Minimize carbon footprint with advanced energy efficient technology (IEEE 802.3az)
- 9K jumbo frames to increase data transfer rates
- Supports IPv4/IPv6 network operation
- No additional power supply required
- Multi-platform support: Windows, Mac OS

Description

The LevelOne USB-0402 Gigabit USB-C Network Adapter allows you to connect to the internet easily through the built-in USB-C port on your laptop. This is an ideal solution for MacBook or other Windows computers that may have wireless built-in but don't come with an Ethernet port. Sometimes you need to physically connect to a network cable to help transfer files or access secure information. The USB-0402 easily does the job, all through your USB-C port.

The USB-0402 is USB 2.0 and 3.0 compliant. It also follows the Ethernet standards set by the IEEE 802.3/3u and 802.3ab, allowing you to take advantage of Gigabit Ethernet speeds of up to 1000Mbps. This provides a strong backbone for any high-speed broadband connection to the internet as well as fast speeds for the Local Area Network file transfers.

This makes the USB-0402 the best choice for reliability, efficiency and standard compliance.

Additional Information

Color	Silver
EAN	4015867225882
Model Number	USB-0402
Package Contents	USB-0402, Quick Installation Guide
Dimensions (W x D x H)	23.4 x 16.5 x 51 mm
Product weight (kg)	0.024
Jumbo frame (KB)	9
Power supply	USB power
