

Wireless gaming mouse GMW-11

CUTLASS

To us, gaming is about speed, accuracy, and endurance, and the GMW-11 Wireless Gaming Mouse delivers on all fronts. Designed for both casual and competitive players, this mouse blends cutting-edge technology with a comfortable, symmetric design that fits perfectly into your hand whether you're left- or right-handed.

At its core is a high-performance optical sensor with four adjustable DPI levels (800/1200/1600/2000/2400) so you can fine-tune your control depending on the game. Need precise sniping in FPS games or swift movements in MOBAs? With the 3000 FPS scanning frequency and 10G acceleration, every click and flick registers with lightning-fast response.

With seven programmable buttons, you get the flexibility to assign commands, macros, or shortcuts, enhancing your reaction time in battle. And let's not forget the vibrant backlight, which adds a touch of style to every gaming setup.

The GMW-11 doesn't just perform - it lasts. Engineered with a robust switch lifecycle of 3 million clicks, this mouse is built for long gaming sessions. Plus, the 1.8m USB cable with a ferrite ring ensures a stable connection while minimizing interference. Gone are the days of worrying about battery life: the high-capacity 400mAh rechargeable battery keeps you in the action longer, with less downtime and no need for constant replacements.

Whether you're a casual player or a competitive warrior, the GMW-11 Wireless Gaming Mouse can be your ultimate tool for victory, comfort, and reliability.

Wireless gaming mouse

Optical Sensor

Backlight modes

7 buttons

DPI level max 2400

Rechargeable

Mouse rate 125-250-500-1000 Hz

WIRELESS GAMING MOUSE

Experience the freedom of wireless gaming without giving up on speed or accuracy. The Haster GMW-11 delivers a seamless, lag-free connection, and your movements stay instant and precise even in the heat of battle, where every millisecond counts.

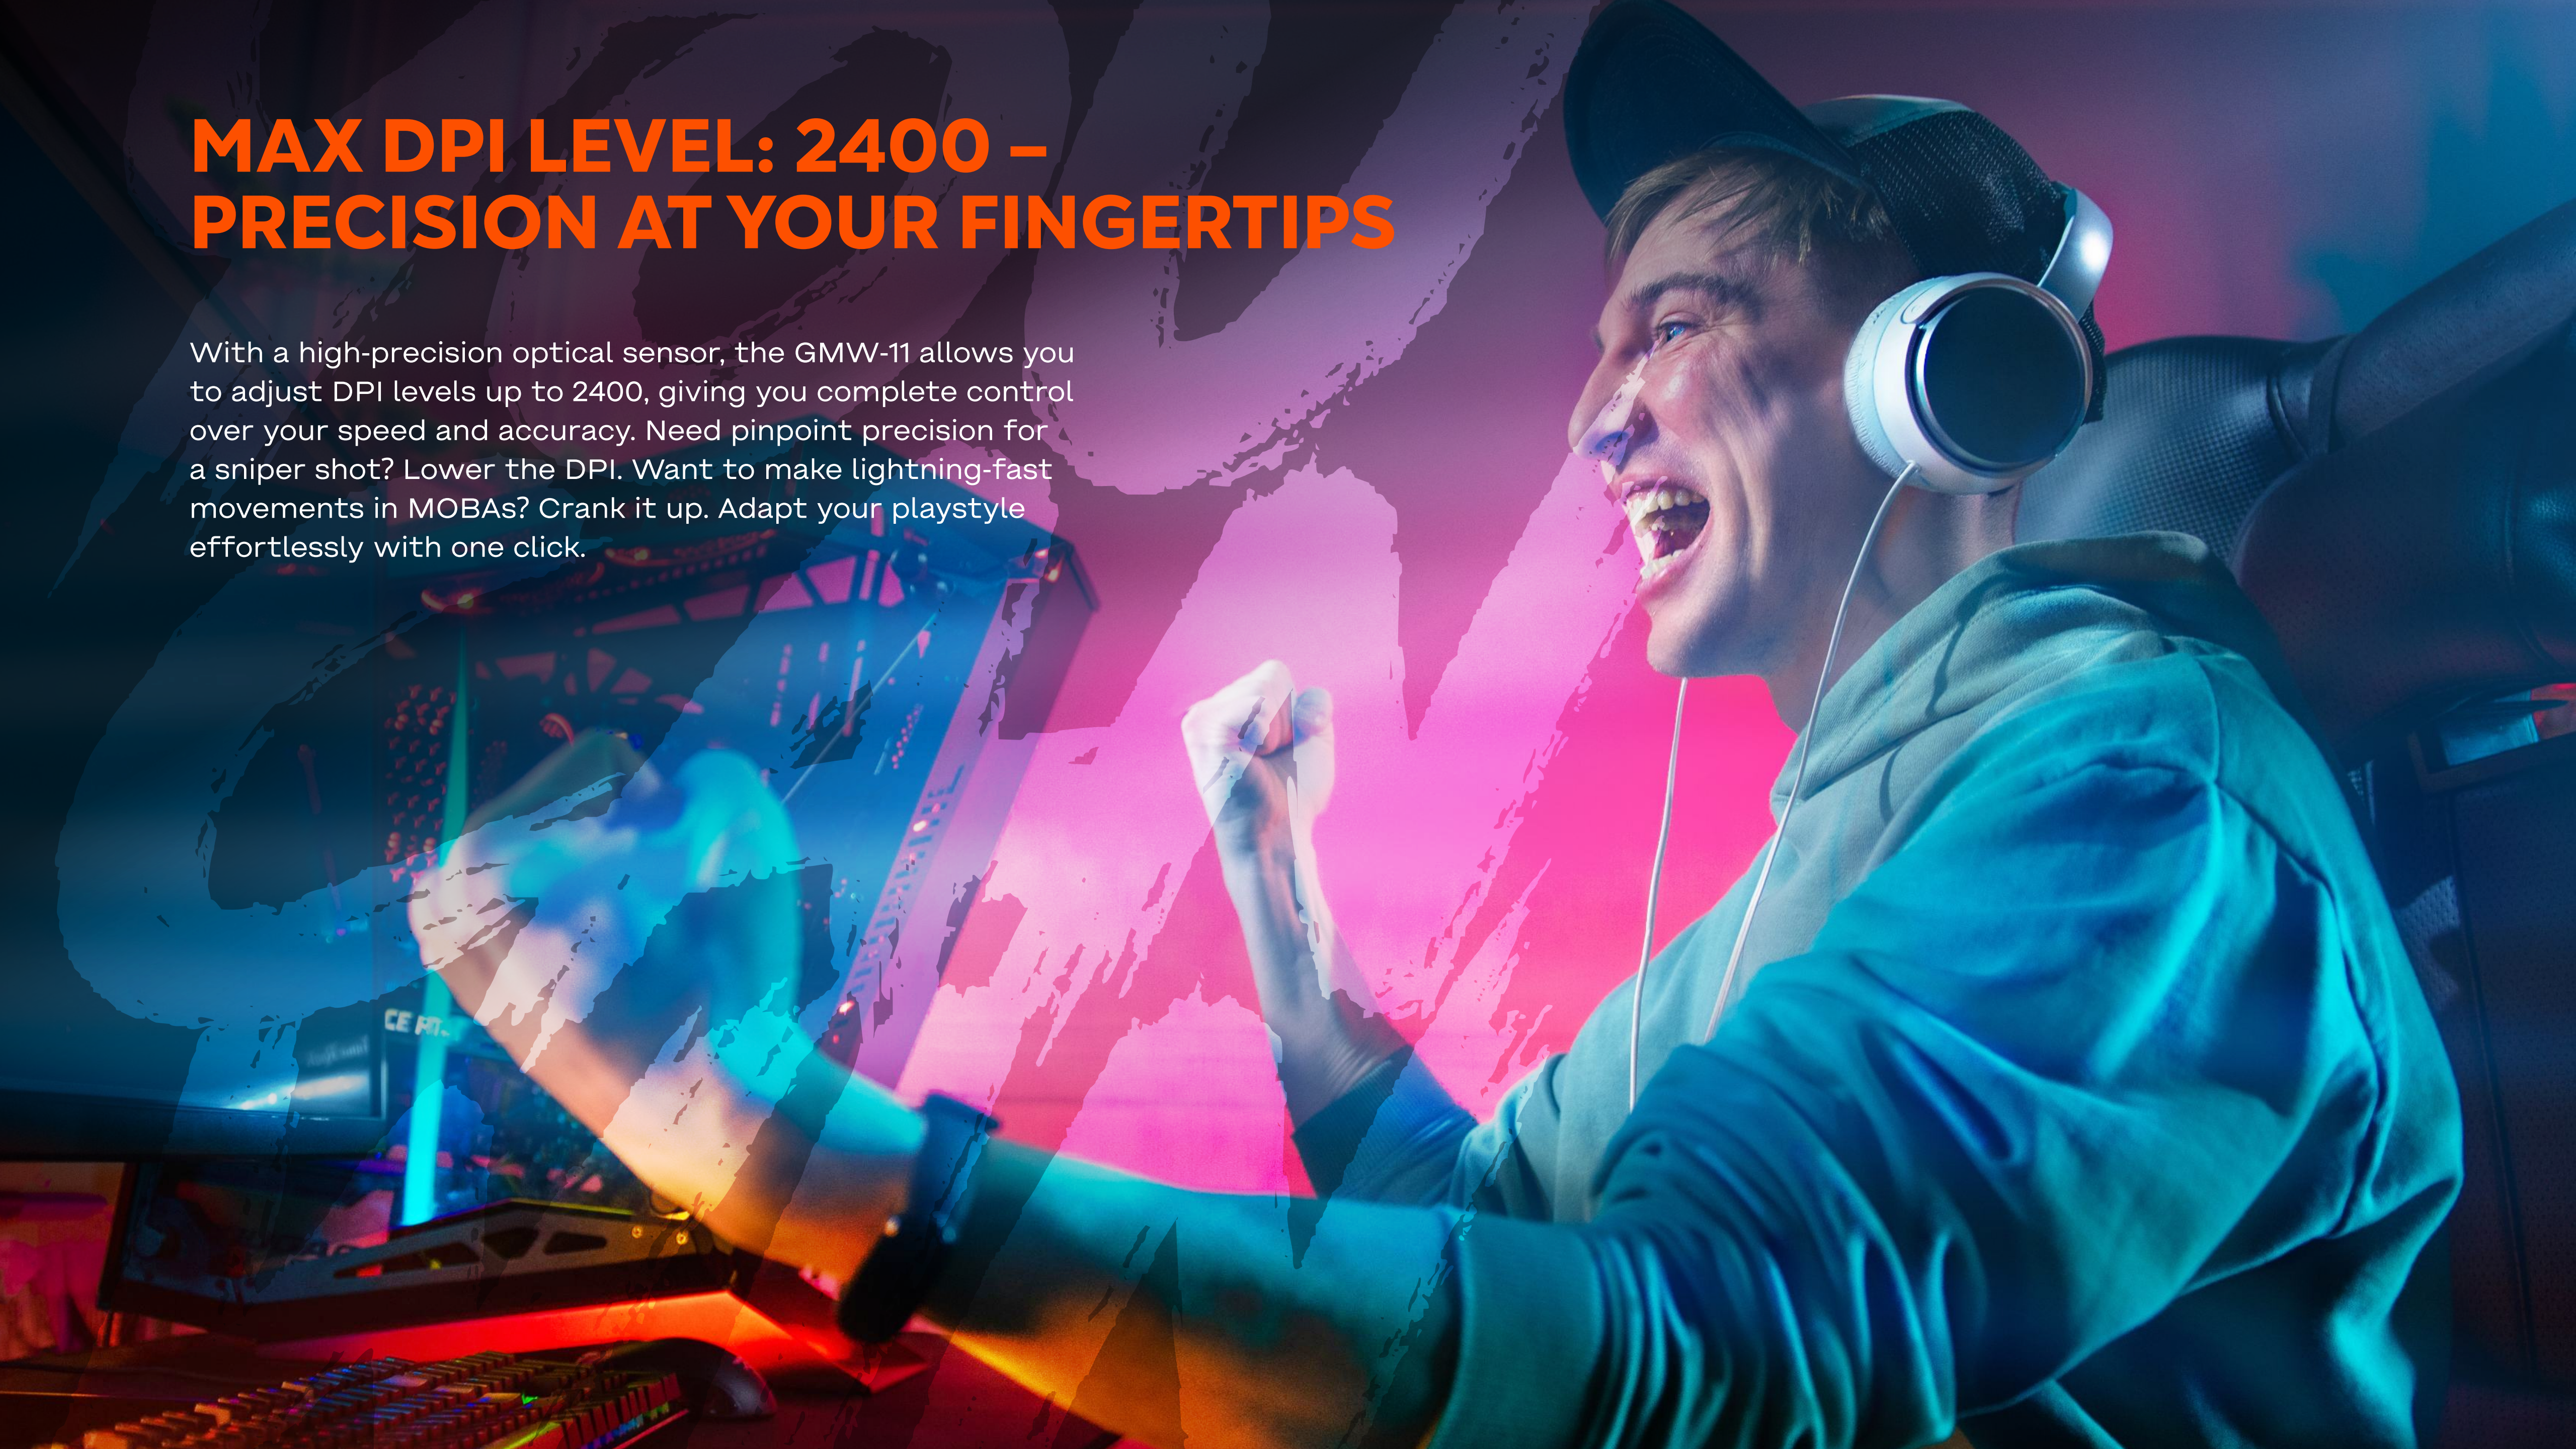

SYMMETRIC DESIGN

Designed for versatility, the GMW-11 Wireless Gaming Mouse features a symmetric shape that fits both left- and right-handed gamers comfortably. Executing quick flicks in an FPS or precise movements in a strategy game? Rest assured: the ergonomic build will deliver long-lasting comfort for marathon gaming sessions.

MAX DPI LEVEL: 2400 – PRECISION AT YOUR FINGERTIPS

With a high-precision optical sensor, the GMW-11 allows you to adjust DPI levels up to 2400, giving you complete control over your speed and accuracy. Need pinpoint precision for a sniper shot? Lower the DPI. Want to make lightning-fast movements in MOBAs? Crank it up. Adapt your playstyle effortlessly with one click.

BACKLIGHT

Gaming is about immersive experiences, too. The dynamic backlight on the GMW-11 adds a bold and futuristic touch to your setup, giving you that extra edge of style as you overcome your opponents.

WIRED & 2.4GHz CONNECTION

Ditch the clutter and experience true wireless freedom with 2.4GHz technology. Enjoy a stable, low-latency connection that ensures every movement and click is registered instantly — just like with a wired mouse, but without the limitations. And when you need it, simply switch to wired mode for uninterrupted performance and charging on the go. With dual connectivity options — 2.4GHz wireless and wired — you get the best of both worlds.

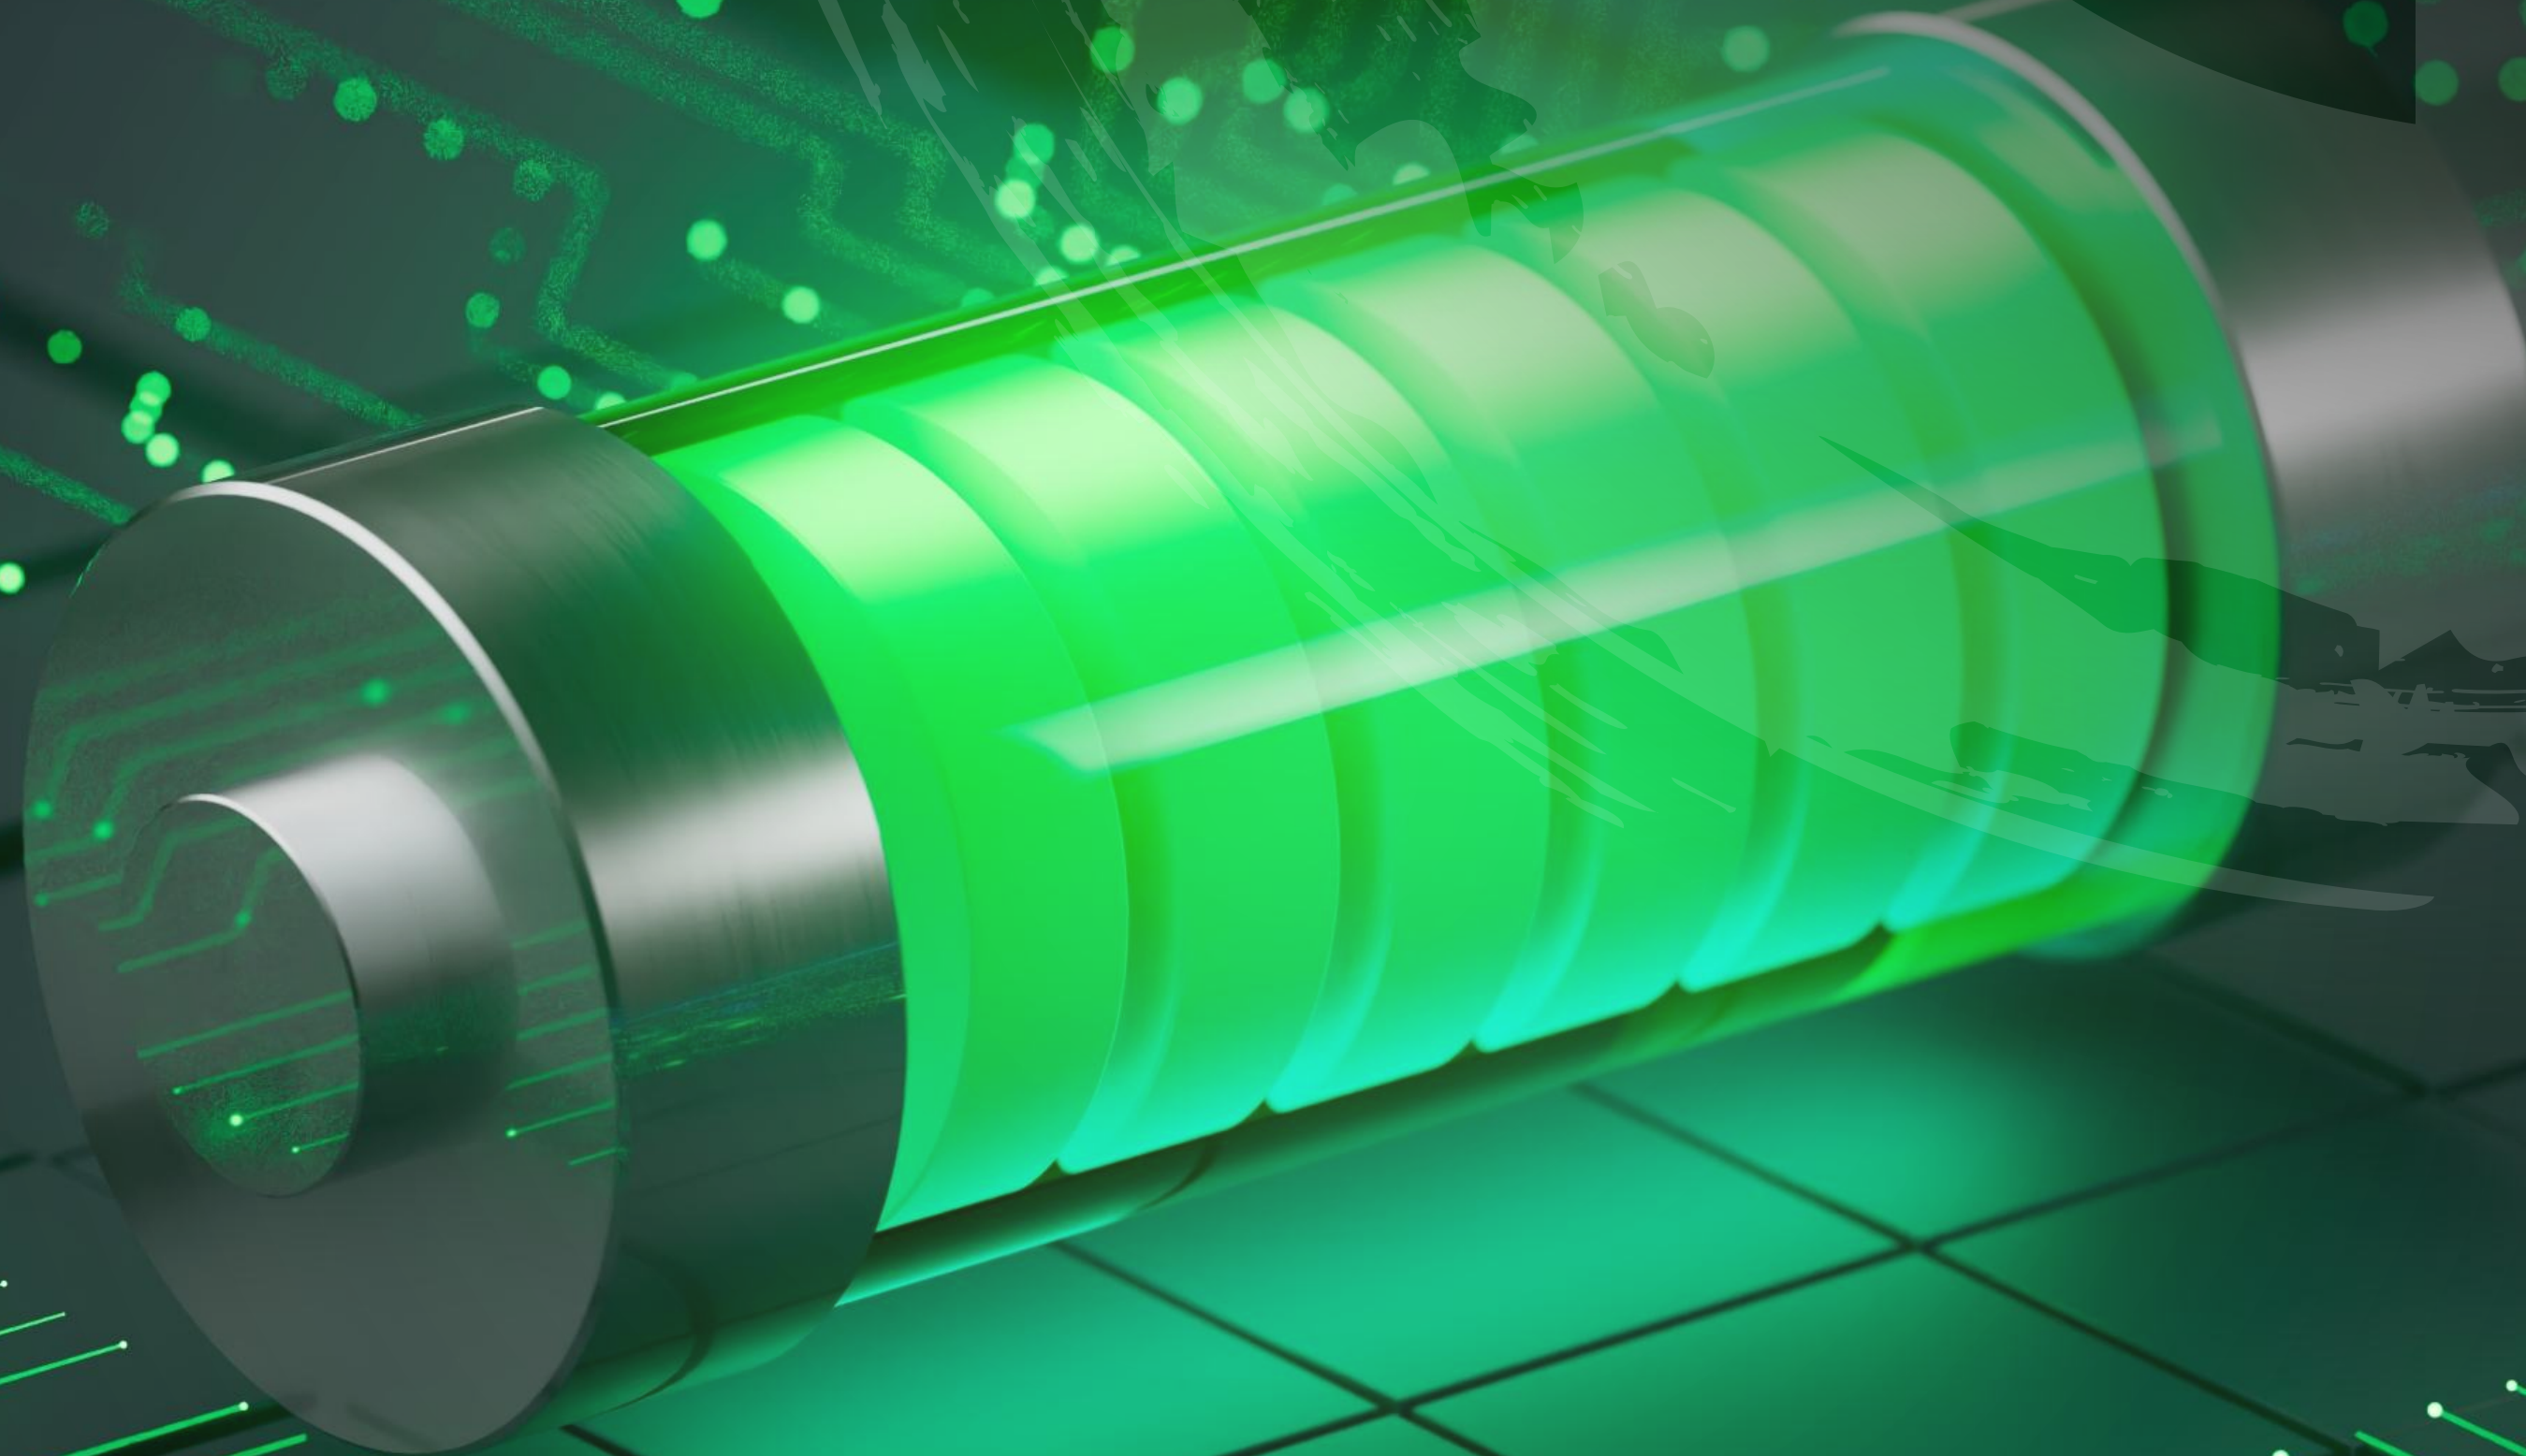

USB CABLE LENGTH – 1.8M

Sometimes, you just can't afford to pause the game, and with the 1.8m USB cable, you don't have to. Charge while you play and enjoy the best of both worlds: wired-like performance with wireless convenience. Plus, the durable ferrite ring minimizes interference, so your gaming stays smooth and uninterrupted.

RECHARGEABLE

No more scrambling for replacement batteries in the middle of a match. The GMW-11 is fully rechargeable, so you can game for hours without interruptions. Simply plug it in when needed, and you're ready to go again in no time.

400mAh BATTERY CAPACITY

The built-in 400mAh battery is meant for efficiency and endurance. With extended battery life, you can focus on your game instead of worrying about power. The GMW-11 keeps up with you as you're grinding ranked matches or exploring vast open worlds.
