

Product name: ENDORFY Spartan 5
Product code: EY3A001

The ENDORFY Spartan 5 is small but efficient, like good air conditioning on a hot summer day. Somewhere in Africa. In the middle of the day.

At its highest point, it's [14.6 cm](#) – short enough to fit in most cases (even the small ones) and keep your CPU cool as ice. Its centerpiece is a 120 mm Fluctus fan, which we mounted on a densely finned heatsink. With such a package you can render and design without worrying that your CPU will suddenly get a fever.

The ENDORFY Spartan 5 is also compatible with many sockets (from older ones like AM2 and LGA1156 to AM5 and LGA1700) and tall RAM sticks, and thanks to our ~~cheat-sheet~~ [video instructions](#), you can set it up in mere minutes.

Hello, can anyone hear me?

The Spartan 5 works so quietly that it could easily get a high-five from any librarian. If you have [perfect](#) hearing, you may hear it during 3D rendering or advanced technical simulations.

Perhaps.

A constant stream of airflow is supplied by the award-winning 120 mm [Fluctus](#) fan. The blades have been shaped in such a way as to blow as much air as possible through the densely arranged heatsink fins. Each blade has a wavy edge, which further reduces fan noise (psychoacoustic optimizations used in Fluctus fans are patent pending).

This is ~~Sparta~~ the Spartan 5!

The Spartan 5 is small, but don't let its compact size fool you!

It's [14.6 cm](#) tall – short enough to fit in most cases and keep your CPU cool as ice. It keeps the components pleasantly cool even when you pull an all-night gaming session after a busy day of work.

Such effective cooling is possible thanks to the heatsink with dense ribbing, which collects thermal energy well. The optimized base with direct-touch heat pipes drastically improves the dissipation of heat. This is ~~Sparta~~ [the Spartan 5!](#)

Mount in a moment

You can literally mount the Spartan 5 in a moment without additional fancy tools. Together with the cooler, we've released video instructions that will guide you step by step through the whole process.

By the way, we've taken care of the usually hardest things – we've preinstalled a 120 mm Fluctus fan for you – so you'll be able to handle the whole process easily, even if it's your first time assembling a PC.

[6-year](#) warranty

We have been in the industry for a long time, and we know that the ENDORFY logo = high quality that cannot be faked. That's why with the Spartan 5 cooler you get a long, 6-year warranty (although you probably won't use it anyway).

ENDORFY Spartan 5 – main features:

- Cost-effective CPU cooling
- Compact design
- Integrated Fluctus fan
- Extended fan speed range
- Pre-applied Pactum PT-3 thermal compound
- Easy and rapid installation
- 6-year warranty

ENDORFY Spartan 5 – technical specifications:

- Product code: EY3A001
- EAN: 5903018665788
- Product type: CPU air cooler
- Colour: black
- Radiator dimensions: 146×125×65 mm
- Radiator type: tower
- Heatpipes: 2
- Maximum number of fans: 1
- Fans (included): 1
- Included fans:
 - 1 × Fluctus (integrated)
 - Fan dimensions: 120×120×25 mm
 - Fan speed: 250 (±100) – 1500 (±10%) RPM
 - Control (speed): PWM
 - Connector (fan): 4-pin (male and female)
 - Voltage (fan): 12 V
 - Current (fan, peak): 0.22 A
 - Fan bearing: FDB
- MTBF: 100 000 h
- TDP: 160 W
- CPU compatibility:
 - AMD: AM5, AM4, AM3(+), AM2(+), FM2(+), FM1
 - Intel: LGA1700, LGA1200, LGA1150, LGA1151, LGA1155, LGA1156
- Warranty: 72 months

ENDORFY Spartan 5 – logistics data:

- Retail box dimensions: 153×113×184 mm
- Weight (net): 435 g
- Weight (gross): 555 g
- Master carton dimensions: 590×325×402 mm
- Master carton weight (gross): 12.6 kg
- Product quantity in master carton: 20 pcs

Set includes:

- Spartan 5 heatsink with integrated Fluctus fan and pre-applied Pactum PT-3 thermal paste
- Mounting accessories
- Safety instruction
