Der neue ALLNET ALL-SG8208M Switch stellt eine optimale Basis für kleine und mittlere Arbeitsgruppen mit hohem Netzwerk- und Datenaufkommen dar und ermöglicht eine schnelle Datenübertragung im Netzwerk. Mit insgesamt 8 abwärtskompatiblen Gigabit Ports sind die angebundenen Rechner und Server zuverlässig und leistungsstark miteinander verbunden.

Durch das lüfterlose Design ist der ALL-SG8208M auch ideal in Büroumgebung einsetzbar, da keinerlei störende Geräusche erzeugt werden. Der Switch ist smart managebar und unterstützt somit alle nötigen Standards wie QoS, VLAN, Storm-Control oder IGMP Snooping. Das sorgt für höchste Performance & Sicherheit in ihrem Netzwerk.

Das robuste Gehäuse aus Metall schützt die Hardware bestmöglich.
