

BrackIT[®] Stand Scandio Moto White **Item no.: 8282**

Mobile stand system with motorized height adjustment

The BrackIT[®] Scandio Moto White is a mobile stand system with motorized height adjustment. It is suitable for screens with a size from 65 - 98" / 165 - 249 cm.

The screen is mounted in landscape orientation. The bracket supports from min. VESA 100 x 100 mm up to max. VESA 1200 x 600 mm.

The height can be adjusted between 1307 - 1607 mm (approx. screen centre) either via a push button directly on the stand system or via remote control. Two individually programmable memory slots are also available.

The easy to maintain surfaces are protected by a solvent free, impact and scratch resistant powder coating with an elegant white finish. The discreet design blends easily into any environment.

Mobility is ensured by robust, rubberised castors. The castors locking brakes ensure a secure hold in the desired end position.

Smaller accessories can be easily stored on the practical AV shelf included.

The maximum load capacity of the system is 85 kg.

Mobile, thanks to rubber coated castors with locking brakes

The included AV shelf provides space for accessories

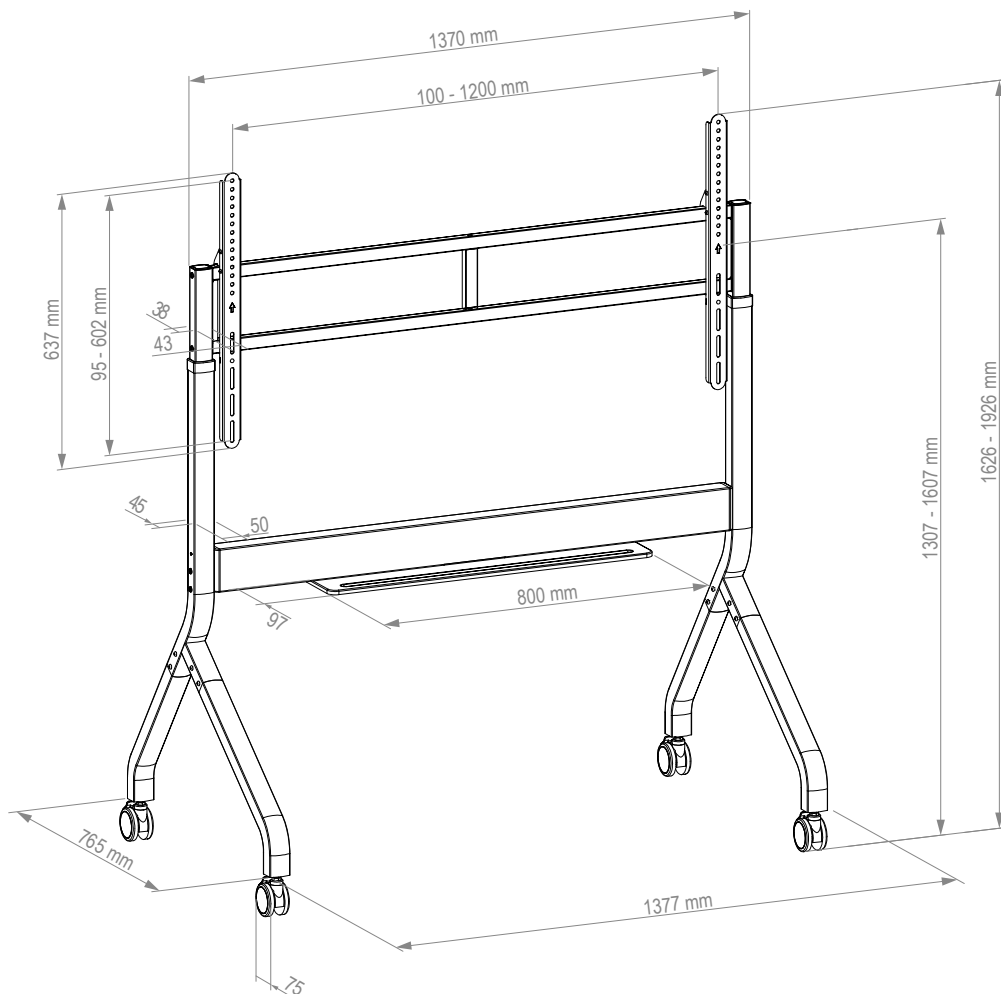

Height adjustment via push button or remote control

BrackIT[®] Stand Scandio Moto White **Item no.: 8282**
