

## Equipment Highlights

### LED Display

Easy-to-read and bright LED display with minimal power consumption.

### Saver

The additional function enables energy savings due to lower power consumption.

### Timer

12 / 24 hrs mode. Switching on and off after the desired time.

### Dehumidification

Ideal for dehumidification, without temperature difference.

### R32 Refrigerant

Is more environmentally friendly and energy-saving than some other refrigerants.

### Quiet

The volume level can be reduced by low, full speed or sleep mode.

### Auto Restart

After switching off or a power failure, the selected program continues.

Premium Cooling

QUICK CONNECTOR

**Cooling capacity: 18,000 BTU**

**max.160m<sup>3</sup> - max.64m<sup>2</sup> at 2.5 meters room height**

Whether cooling, heating or dehumidifying an air conditioner is always a worthwhile investment for our well-being. Especially in the dormitories, air conditioners are in high demand because there should be a feel-good climate in order to start the new day as rested as possible. A physical well-being increases our performance. Decisive for our well-being is an optimally tempered and dehumidified living space. The dehumidification function in particular is particularly noticeable even at the same temperature. For example, an air-conditioned room with 26°C differs significantly from a non-air-conditioned room air with sultry indoor air. Roof buildings and attic apartments can reach unpleasant temperatures as early as spring. Getting the heat off again in a short time often proves to be very difficult. With an air conditioning system from BE COOL you can solve this problem

and can look forward to an improved indoor climate of tomorrow.

Premium Cooling

QUICK CONNECTOR

3D air flow + super mute model + 8°C heating function + I Feel + Low temperature

Cooling + Comfortable Cooling + 6-fan speed + Rapid cooling and heating + Children

Lock + Backlight display remote + Louver position memory + I Set + Gold Fin +

Seleven-cleaning function + Healthy filters

### Heat pump principle

This comfortable and energy-saving air conditioning is also known as air-to-air heat pump. There is a lot of unused energy hidden in the air. BE COOL devices pick up the energy and process it. Invest in a free energy source today and benefit from the vitalizing effect of a perfectly air-conditioned and dehumidified living or business space.

### Activated carbon filter

The additional filter ensures a healthier indoor climate and filters suspended substances from the air.

### Contents

1x Outdoor unit 18.000 BTU  
 1x indoor unit  
 1x 4m copper lines  
 1x vibration damper /  
 Underlay plates  
 1x User Manual  
 1x Remote control

### Warranty period

2 years

Österreichische  
 Marke

## Premium Features

- **3D Air Flow Vertical/horizontal Auto Swing:**  
The air flow is distributed left/right and top/bottom
- **Super Silent Fashion**  
Operation with only 18dB volume
- **Antifreeze function (+8°C)**
- **Temperature measurement via the remote control**  
Ensures optimal temperature measurement in my environment
- **Cooling function up to -15°C outside temperature possible**
- **Comfort Cooling:**  
When cooling, we avoided too much dehumidification
- **6-fan levels:**  
Low/Middle/High/Auto/Turbo/Mute
- **Turbo cooling function and heating function**
- **Parental controls or Key lock for the remote control**
- **Backlight display on the remote control**
- **Louver position memory**  
The opening angle of the slats is stored when switched off
- **Gold Fin**  
Long-lasting lotus effect - Antibacterial - Energy-saving - Durable
- **I Set**  
Memory function of the remote control
- **Self-cleaning function**
- **Healthy filters Silver Ion / Activated Charcoal / Catechin Filter / Vitamin C Filter**  
improve air quality

## Technical data

- Cooling capacity: 18,000 BTU
- Coolant: R32
- SEER: 6.1
- SCOP: 4.0
- Cooling capacity: max. 5,100 watts
- Heating capacity: max. 5,130 watts
- Energy class: A +
- Indoor air circulation: 800 m<sup>3</sup> / h
- Indoor sound power: 36-53 dB (A)
- Outdoor sound power: 65 dB (A)
- Indoor sound pressure: 27-43 dB (A)
- External sound pressure: 55 dB (A)
- Power supply: 220-240V . .
- Cooling: 1.7 x 12.0 A Heating: 1.7 x 13.0A
- Application: max. 160 m<sup>3</sup> ( \* 64m<sup>2</sup> ) \* at 2.5 meters room height
- Dimensions internal unit: mm 910 x 294 x 206 (W x H x D)
- Dimensions outdoor unit: mm 853 x 602 x 349 (W x H x D)
- Weight indoor unit: 10 kg
- Weight outdoor unit: 35 kg

EAN Indoor Unit: 9005151000498

EAN Outdoor Unit: 9005151000436

**Note:** This device must be installed by a certified specialist company, according to Climate Change Regulation EU Regulation 517/2014 (Implementing Regulation No. 2015/2067). We would like to point out that the installation prices as well as the installation times may differ due to different regional specialist companies.
