

Hot Water Dispenser | 2.5 L | One Button Operation

General information

Dispense hot water instantly whether you want just a cup full or a continual flow. This energy saving device can heat water up to boiling in just 5-10 seconds, and alert you if water is running low or if there is a build up of limescale. Its removable drip tray makes for easy cleaning and it has boil dry and overheat protection.

Features

- Dispense and stop hot water at the touch of a button
- Select between continuous flow or just a cup's worth
- Energy saving - boiling water is available in 5-10 seconds
- Boil dry and overheat protection - for safe use
- Clear water level window and indicator lights when water is running low
- Removable drip tray with stainless steel cover - for easy cleaning
- Adjustable height - for different sized cups
- Limescale monitor - to indicate when limescale cleaning may be required
- With filter box to hold optional water filter
