

ATHERIC02B Wireless HDMI Extender Kit, 1080p 60Hz, 30m, 5GHz, USB-Powered, Plug-and-Play

Product Images

Short Description

- **Resolution & Performance:** Streams smooth 1080p @ 60Hz high-definition video using high-speed 5GHz wireless technology.
- **Transmission & Distance:** Extends HDMI content wirelessly up to 30m, bypassing the need for expensive and unsightly long-range cables.
- **Control Features:** True Plug-and-play functionality; requires no Wi-Fi network, apps, or complex driver installations.
- **Power & Flexibility:** Conveniently USB-powered; supports both mirror and extended display modes for flexible viewing.
- **Design & Build:** Lightweight and compact form factor makes it the perfect accessory for travelers and professional presenters.

Description

The Conceptronic ATHERIC02B is a universal wireless solution for HDMI sources such as laptops, game consoles, and cameras. It provides a lag-free 1080p 60Hz signal to any display up to 30 meters away, making it ideal for classrooms, meeting rooms, and home theater setups where running cables is impossible. Compact and entirely USB-powered, this kit is designed for portability and can be deployed in seconds with zero software installation.

Additional Information

Color.	Black
