## Radeon RX 5700 XT EVOKE

### SPECIFICATION

|                            |                                                                 |
|----------------------------|-----------------------------------------------------------------|
| Model Name                 | Radeon™ RX 5700 XT EVOKE                                        |
| Graphics Processing Unit   | Radeon™ RX 5700 XT                                              |
| Interface                  | PCI Express 4.0                                                 |
| Core Name                  | NAVI 10 XT                                                      |
| Cores                      | 2560 Units(40CU)                                                |
| Core Clocks                | Boost: UP to 1905 MHz<br>Game: Up to 1775 MHz<br>Base: 1630 MHz |
| Memory Speed               | 14Gbps                                                          |
| Memory                     | 8GB GDDR6                                                       |
| Memory Bus                 | 256-bit                                                         |
| Output                     | DisplayPort x 3 (v1.4) / HDMI 2.0b x 1                          |
| HDCP Support               | 2.2                                                             |
| Power consumption          | 225 W                                                           |
| Power connectors           | 8-pin x 1 + 6-pin x 1                                           |
| Recommended PSU            | 750 W                                                           |
| Card Dimension(mm)         | 254 x 129 x 51 mm                                               |
| Weight (Card / Package)    | 894g / 1341g                                                    |
| Afterburner OC             | Y                                                               |
| DirectX Version Support    | 12                                                              |
| OpenGL Version Support     | 4.5                                                             |
| Multi-GPU Technology       | Crossfire™, 2-Way (Bridgeless)(DX12)                            |
| Maximum Displays           | 4                                                               |
| VR Ready                   | Y                                                               |
| Digital Maximum Resolution | 7680x4320                                                       |

### FEATURE

### CONNECTIONS

1. DisplayPort
2. HDMI
