Endorfy Signum 300 Solid (EY2A003)

Endorfy Signum 300 Solid is your personal management center – you can lock everything you need to win inside it, even if that involves meters of cables.

It was designed to impress, and we think it does a pretty good job – the case looks rad and maintains a fresh draft around the PC components. You can easily fit a tall CPU cooler and a 350 mm long video card inside. There is also space for eight fans - including one Stratus 120 PWM that we're throwing in.

Endorfy Signum 300 Solid can also accommodate two 3.5-inch hard drives with another two 2.5-inch ones (or four small drives instead). That's enough to make sure your components won't be crowded like otaku in a queue at a manga and anime convention :)

Let's make some ~~noise~~ draft!

When your life is all about computers, you know that the best friend of your hardware is an airy case with ample airflow. That's why Signum 300 Solid has a mesh front and as many fan mounts as we were able to fit in such a small space (and we've managed a lot). We simply enjoy the breeze.

You can install as many as eight fans in Signum 300 Solid – including one Stratus 120 PWM that we are throwing in.

We have also included a set of removable dust filters with magnets keeping them in place. You can easily clean vacuum them, clean them with a cloth, or wash them with water. Protecting your computer against dirt and debris is no longer a problem, and Signum 300 Solid is both airy and dust resistant.

Stratus 120 PWM fan

Signum 300 Solid can accommodate up to eight fans. For a good start, we've thrown in one of our Stratus 120 PWM fans, which we've developed in cooperation with Synergy Cooling.

It's a quiet, efficient, and durable fan, equipped with a long-life fluid dynamic bearing. You can control it with a PWM signal, which means that extremely low speeds are achievable for a pleasant silence. You will hear nothing but our own mouse clicks and the rustle of curtains moving in your home office ;)

Can you wrap your ~~head~~ chassis around it?

Behind every virtual race won or every video edited, there are top-tier components that made it possible.

Lots of top components.

That's why we've made room for more. You no longer have to choose between a better graphics card and a more extensive cooling system – you can fit both.

Signum 300 Solid is compatible with liquid cooling systems with radiators up to 240 mm (top) and 240/360 mm (front panel). It fits tower-type air coolers up to 161 mm tall and graphics cards up to 325 mm long.

There are enough mounting spots for two 3.5-inch hard drives and two smaller 2.5-inch drives – or up to four small ones in total. All the mounting hardware is included – just open the box and do your thing.

Endorfy Signum 300 Solid – main features:
- Mesh front panel
- 8 fan mounts
- Removable dust filters
- Wide cooling compatibility
- Convenient cable management
- Flexible HDD mounts

Endorfy Signum 300 Solid – technical specifications:
- Product code: EY2A003
- EAN: 5903018666228
- Product type: PC case
- Colour: black
- Dimensions: 413×447×205 mm (H×W×L)
- Motherboard form factor: ATX, micro ATX, ITX
- Video card clearance (GPU): 350 mm
- CPU cooler clearance: 161 mm
- Power supply clearance: ATX up to 180 mm
- Expansion slots: 7
- Number of bays:
  - internal:
    - 2× 2,5"/3,5"
    - 2× 2,5"
- Cooling system:
  - Fan capacity (maximum): 8
  - Fans (included): 1
    - Rear: 1× Stratus 120 PWM fan (200 – 1400 rpm)
- Radiator capacity:
  - Front: 1× 120, 240, 360 mm
  - Top: 1× 120, 240 mm
  - Rear: 1× 120 mm
- Dust filters:
  - Front: magnetic
  - Top: magnetic
  - Bottom: magnetic
- Front I/O:
  - 2× USB-A,
  - 2× AUDIO JACK
  - 1× POWER button
  - 1× RESET/LED button
- Warranty: 36

Endorfy Signum 300 Solid – logistics data:

- Retail box dimensions: 480×265×472 mm
- Weight (net): 4100 g
- Weight (gross): 4950 g

Set includes:
- Endorfy Signum 300 Solid case
- 1× Stratus 120 PWM fan
- Installation accessories
- Safety instruction
