ATMOS RGB Rainbow Mechanical 60% Gaming Keyboard with brown switches, black - US layout

The ATMOS RGB Rainbow Mechanical 60% Gaming Keyboard redefines the gaming experience. With its robust steel plate and mechanical brown switches, it offers precise key response and an impressive lifespan of up to 50 million keystrokes. The rainbow RGB lighting combined with a variety of selectable lighting effects makes the keyboard the ideal part of any gaming setup. The keyboard is characterised by its compact 60% size and is equipped with a 1.65 metre long, detachable USB-C to USB-A cable. The height is adjustable for optimum comfort, and anti-slip feet ensure a stable grip in any situation. Thanks to Win-Key-Lock, unintentional interruptions due to accidental actuation can be avoided. The N-key rollover also ensures that every keystroke is registered, which is essential for fast and error-free input. These functions are complemented by extended control options via the FN key, including access to additional multimedia functions. With its sophisticated construction and versatile features, the ATMOS RGB Gaming Keyboard is an excellent choice for gamers who don't want to compromise on performance and design.
