**Overview**

**25 Word Product Description**

The CORSAIR 275R Airflow is a mid-tower ATX case that pairs modern design with maximum airflow, thanks to a slatted front panel and a single tempered glass window.

**Overview**

**50 Word Product Description**

The CORSAIR 275R Airflow is a mid-tower ATX case that pairs modern design with maximum airflow, thanks to a slatted front panel a single tempered glass window. Three included 120mm fans enable powerful cooling right out of the box, with room for up to six total fans or multiple radiators in sizes up to 360mm.

**Overview**

**100 Word Product Description**

The CORSAIR 275R Airflow is a mid-tower ATX case that pairs modern design with maximum airflow, thanks to a slatted front panel and a single tempered glass window. Three included 120mm fans enable powerful cooling right out of the box, with room for up to six total fans or multiple radiators in sizes up to 360mm. Fit up to two 3.5in HDDs and four 2.5in SSDs, with a Direct Airflow Path™ layout ensuring obstruction-free airflow to your components. Once the build is finished, the 275R Airflow helps you keep your system clean and tidy with simple, intuitive cable routing and three removable dust filters.

Features and Benefits

Style 1

- A slatted front panel design allows ample airflow into your system for more efficient cooling.
- Clean and modern styling, with an angled ventilation pattern and a transparent tempered glass side panel that provides a window into your system.
- Includes three 120mm cooling fans for powerful airflow out of the box.
- Room to install up to 6x 120mm cooling fans or multiple radiators in sizes up to 360mm.
- Drive trays accommodate up to two 3.5in HDDs and two 2.5in SSDs, with two additional 2.5in mounts.
- Direct Airflow Path™ ensures an obstruction-free layout that channels cool air to your PC's hottest
- Intuitively placed cable routing channels and tie-downs make for simple and tidy cabling that helps optimize airflow.
- Removable dust filters in the front, roof, and floor keep your system clean after the build is finished.

Style 2

- **High Airflow Front Panel:** Slatted front panel design allows ample airflow into your system for more efficient cooling.
- **Clean and Modern Styling:** Complete with an angled ventilation pattern and a transparent tempered glass side panel that provides a window into your system.
- **Three 120mm Cooling Fans Included:** For powerful airflow out of the box.
- **Versatile Cooling Options:** Room to install up to 6x 120mm cooling fans or multiple radiators in sizes up to 360mm.
- **Expansive Storage:** Drive trays accommodate up to two 3.5in HDDs and two 2.5in SSDs, with two additional 2.5in mounts.
- **Direct Airflow Path™:** An obstruction-free layout channels cool air to your PC's hottest components.
- **Easy Cable Routing:** Intuitive routing channels and tie-downs make for simple and tidy cabling that helps optimize airflow.
- **Removable Dust Filters:** Three filters in the front, roof, and floor keep your system clean after the build is finished.
