eHBU312

12x External Blu-ray Disc Writer

The ultra-fast eHBU312 USB 3.0 external Blu-ray writer – high-capacity storage for time-short information junkies

The eHBU312 is a fast external Blu-ray writer that lets you store high-resolution photographs, share your HD videos, backup personal data, store downloads, and free plenty of hard drive space. Using the latest USB 3.0 interface, a generous buffer, and an ultra-fast 12 speed burning system the drive has been created to burn high capacity Blu-ray discs in the quickest possible time.

With a storage capacity of up to 50 GB on a double-layer Blu-ray disc (25 GB on single layer) the eHBU312 plugs into any USB port to store the equivalent of 10 average DVDs or 77 average CDs on just one Blu-ray disc.

In addition to quickly burning DVDs and Blu-ray discs the drive can transform any suitably specified laptop or desktop into a complete Blu-ray player. This gives you the chance to enjoy the latest movies in vibrant, rich 1920 x 1080p high definition with superb audio.

Whether you're a digital photographer, a HD video enthusiast, or just a normal computer user you'll find the quick eHBU312 indispensable for high capacity storage. The Lite-On eHBU312 delivers ultra-fast USB 3.0 Blu-ray burning and amazing movie playback in a convenient external drive.

Product Features

- SuperSpeed USB 3.0 - USB 3.0, the newest USB standard, gives the drive a super fast connection to the computer ensuring that the eHBU312 delivers the shortest burn times and fastest disc reads. The drive will also work with older computers with USB 2.0 at reduced speed
- High-Capacity Blu-ray Storage - High-capacity storage of up to a massive 50 GB on a double-layer Blu-ray disc (or 25 GB on single layer), allowing the drive ability to save to disc 20 hours of DVD quality video, almost 10 000 typical 12 megapixel photographs, or nearly 625 hours of continuous music
- External drive with Blu-ray playback - The convenient external design brings the high definition world of Blu-ray movies to your laptop, desktop, or home theater PC. Immerse yourself in the visual brilliance of full 1920 x 1080p resolution films without buying a new computer*

*Computer must meet required specification for Blu-ray playback and have a suitable HD display to experience high definition.
