VivoMini PC VC68V

Empower your business. Collaborate with ease.

ASUS VivoMini VC68V is a compact PC designed for professional use and communication. It is the world's smallest PC that can house up to five internal storage devices, and it delivers uncompromised performance with a desktop-grade 7th Gen Intel Core vPro processor and 4K UHD support for up to three displays. A built-in amplifier and dedicated Skype buttons make VivoMini VC68V the perfect conference call hub, and its versatile design enables a variety of storage and optical drive configurations for improved data performance, productivity and media options.

Performance

Do more with 7th Gen Intel Core processors

Powered by a desktop-grade, 7th Generation Intel® Core™ vPro™ i7 processor* (Up to 4.2GHz) and up to 32GB DDR4 memory, VivoMini VC68V delivers the performance required to run bandwidth-intensive applications such as video editors or 3D modeling software. Intel vPro also provides security and device management technologies for greater protection and easy remote management.

*Processor may vary by model or region

Easy Collaboration

Built-in Skype buttons for convenient conference calls

With the dedicated Skype buttons on the front of VivoMini VC68V, you can make calls and start conferences instantly, and immediately launch hassle-free skype conference calls immediately without toggling screen. A built-in Texas Instruments amplifier provides clear and crisp sound when making calls with wired headsets.

Longetivity and Manageability

Corporate Stable Model

The CSM is an intiative designed to provide businesses with stable product supply and enhanced aftersales support. Each CSM mini PC purchase entitles the customer to ASUS Control Center IT-management software suite (CSM edition, worth $60)* that provides comprehensive control and monitoring. ASUS CSM products also include a stable roadmap and assured 36-month supply availability to ensure customers need not worry about material-supply gaps or extended supply.

*Program offerings may vary by region. Please consult your local sales representative for more information.

Advantages	CSM Mini PC Features
Server management	ASUS Control Center
Stable supply	36+ months product Lifecycle *Starting from product launch date
	6-month EOL notice
	ECN control *by request
Other support	Windows 10 and Pre-WHQL Ready

VivoMini VC68V for Conference

Easy conferencing and collaboration

VivoMini VC68V is an integrated conferencing solution designed for modern offices. Simple, secure and smart, it combines one-touch conferencing with powerful PC performance.

One-touch conferencing

Built-in Skype buttons for instant conference calls

VivoMini VC68V streamlines conference calling with one-touch control of Skype and wireless sharing with Intel® Unite™. Dedicated Skype buttons on the front of VivoMini VC68V let you make calls and start conferences instantly.

Wireless Collaboration

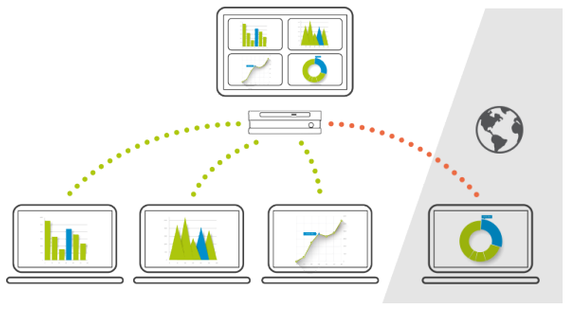

Save setup time and boost meeting productivity

VivoMini VC68V with Intel® Unite™ allows easy collaboration between onsite and remote participants, enabling better, more effective communication between teams across a wireless network. Meeting participants no longer need dongles or cables to connect their various devices, but instead only require a PIN code to join the meeting.

Effective Collaboration

Split-screen viewing and real-time annotation

Intel Unite allows up to four online presenters to share their screens simultaneously, enabling side-by-side comparison of data from separate reports or documents, and collaborative presenting using different devices. All meeting participants can view, annotate and share documents in real time, and each participant can easily distribute content with the integrated file-transfer feature.

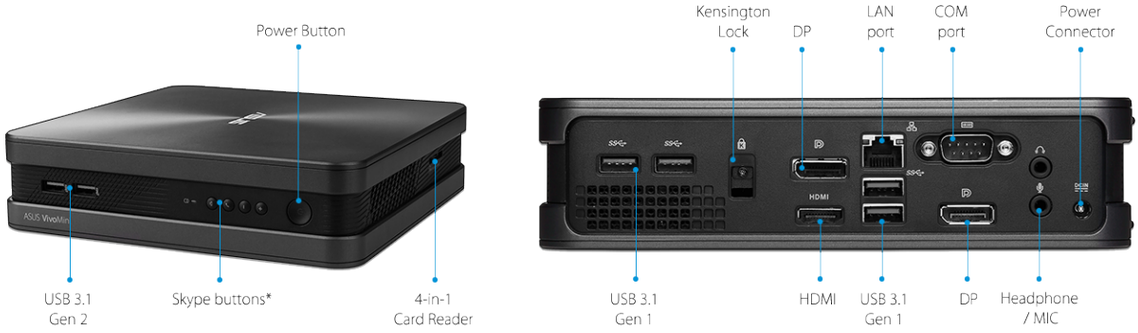

Three-Display Productivity

4K visuals via dual DisplayPort and HDMI

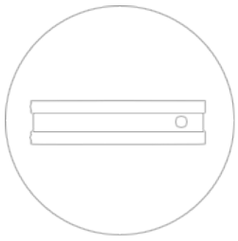

VivoMini VC68V gives you ultra-realistic 4K UHD visuals on up to three displays via dual DisplayPort connections and an HDMI output. With multiple displays, you'll enjoy more onscreen space, sharp details, and true colors for editing video, viewing media and giving presentations. Because it's compatible with any monitor, HDMI-equipped TV, or projector, VivoMini VC68V gives you a multitude of display options.

*NVM Express® support for blazingly fast SSD data transfers of up to 32Gbps

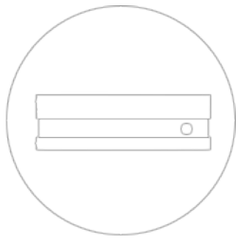

Three chassis configuration options

Dual storage

Dual storage with one optical drive

Quad storage

Model	ASUS VivoMini VC68V
Processor	Intel® Core™ i7-7700 processor Intel® Core™ i5-7500 processor
Operating System	Windows®10 Pro
Chipset	Intel® Q270
Graphics	Integrated — Intel® HD Graphics 630
Displays	Up to three displays
Memory	2 x SO-DIMM DDR4 2400MHz memory up to 32GB
Storage	Up to 4 x SATA 6Gb/s 2.5" HDD or SSD 1 x M.2 PCIe 2280 slot for Opal SSD or Intel® Optane™ memory (optional)
