- Case offers 20 hours of extra play time
- IPX5 splash and sweat resistant

PHILIPS

True Wireless Headphones
Rich sound Clear call quality, IPX5 water resistant, Up to 26 hours of play time

TAT3217BK/00

Highlights

Secure, comfortable in-ear fit

These hockey stick design earbuds fit into your ear canals, creating a seal that diminishes external noise. Powerful 10 mm drivers let you enjoy rich, vibrant sound. Includes three sizes of soft, interchangeable silicone ear-tip covers.

2 ENC mics for clear calls

ENC utilises a dual-mic, noise-cancelling algorithm to give you great call clarity. Two mics effectively reduce the ambient noise, so you can hear each other distinctly. These True wireless headphones let you communicate clearly every time!

Pocket-sized charging case

Take your music anywhere with this pocket-sized charging case! Fully charged, the headphones give you 6 hours of play time and a fully charged case adds 20 hours more. For a quick boost, charge the headphones for 15 minutes and get an extra hour!

IPX5 splash/sweat resistant

An IPX5 rating lets you bring your music with you no matter what the weather! The headphones are water resistant and won't even mind the occasional shower, so you don't need to worry about getting caught in the rain.

Customisable sound

Enhance the bass. Tone down the treble. Make your sounds your own! The Philips Headphones App puts you in charge of the music you're listening to. Adjust the levels yourself or choose from preset sound styles.

Easy control and pairing

Touch controls on the earbuds make life super easy! Use them to pause your music, take calls and wake your phone's voice assistant. Once paired, the headphones will reconnect with your phone as soon as you open the charging case.

Mono mode for calls

Taking a lot of calls? You can double your talk time by using one earbud while the other one charges. The mic is automatically assigned to the earbud you're using, so simply swap over when your current earbud runs low on battery.
