

Egg Cooker | 8 Pcs | 3 Stages | 500 Watts

General information

With this Nedis® egg cooker you'll have perfect hard, medium or soft boiled eggs ready in no time - even with hectic mornings or if you're a kitchen novice. Simply add the right amount of water with the included jug. Poke a hole in each egg with the integrated egg piercer on the back of the jug so they won't crack during cooking.

There's room to boil 8 eggs. If you rather have your eggs poached, you can use the included poaching tray to make 4 at a time.

The egg boiler does all the monitoring of time and temperature for you so you can get yourself to do other things in between. If the buzzer sounds, you're all set to enjoy eggs exactly to your preference. No more greyish blue egg yolks due to overcooking.

Starting your day with a hearty breakfast couldn't get any easier!

Features

- Boil up to 8 eggs as preferred - soft, medium or hard
- Poaching tray - for 4 perfectly poached eggs
- On/off switch - with integrated timer
- Non-electric parts (lid and racks) are dishwasher safe
- Sleek design - high-quality stainless steel
- Compact, rectangular design - easy to store away
- In-base cable storage - keeps your kitchen counter tidy
