

SKILLER SGK50 S2 WOOD PBT

Full layout, full freedom and a look that impresses: With abrasion-resistant keycaps made of high-quality PBT and a stylish wooden housing, the SKILLER SGK50 S2 Wood PBT has more to offer than just a few eye-catching highlights. And thanks to hot-swap switches and keycaps, high-quality damping and a full range of customization, there is everything you would expect from a modern gaming keyboard.

Features

MODERN AND STYLISH

For a unique and attention-seeking look, the SKILLER SGK50 S2 Wood PBT combines a stylish wooden housing with modern design elements, such as RGB illumination and a chic USB-C coiled cable.

PRE-INSTALLED YELLOW G PRO 3.0 SWITCHES AND PBT KEYCAPS.

Pre-installed under the high-quality and abrasion-resistant PBT keycaps are the yellow switches from the latest Gateron generation. With an operating force of 50 ± 15 g and an immersive, linear feedback, these provide the optimal typing feel for the SKILLER SGK50 S2 Wood PBT.

CUSTOMIZABLE TYPING EXPERIENCE

Or do you prefer the personal touch? That's no problem! Switches of your choice – with either 3 or 5 pins – can easily be installed and used on the SKILLER SGK50 S2 Wood PBT. Of course, the tools required for hot swapping are already included with the keyboard.

RICH KEYBOARD SOUND

To ensure that the keyboard sounds as good as it looks, we have installed a polycarbonate positioning plate and a silicone damping for a rich, deep sound.

FULL CUSTOMIZATION THANKS TO OPEN SOURCE

Instead of having to install software, the SKILLER SGK50 S2 Wood PBT allows the RGB illumination and macros to be simply programmed on-the-fly. In addition, a complete range of customization is available through the compatibility with the open-source software VIA and QMK.

FULL FORM FACTOR

The SKILLER SGK50 S2 Wood PBT is the right choice for those who enjoy full functionality on a full keyboard layout. With 100 to 101 keys, the keyboard has a compact 3-block format that is 96 percent of a conventional keyboard.
