

SleepFix XS - Sleeping pillow for babys from 0 - app. 18 month

Recommended for:

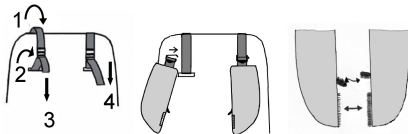

There are two possible applications depending on the seating set up:

A – with belting system or B – with counterweight

1. Pull the belt straps through the openings in the back rest of the child seat and fasten them at the back
2. Click the pillow units onto the belts
3. Use the Velcro fasteners to connect the sleeping pillows

1.

2.

3.

1. Click the pillow units onto the loops
2. Hang the counterweight over the back rest of the child seat
3. Use the Velcro fasteners to connect the sleeping pillows

1.

2.

3.

ATTENTION:

- We recommend testing both application methods
- Only use the SleepFix pillow in combination with a seat belt
- Attach the pillow using the Velcro strips and Velcro dots provided
