

BIKE CHAIN DEGREASER SPRAY

Biodegradable drivetrain cleaner

Description

Many bike components contain moving parts that require regular greasing or oiling. In particular, chains, chainrings, and derailleurs tend to collect dirt and grime. This buildup affects performance and leads to wear over time. The most effective weapon in the fight against these oily and greasy deposits is the rapidly biodegradable MOTOREX BIKE CHAIN DEGREASER SPRAY. Thanks to its outstanding creeping ability, the cleaner penetrates even the smallest spaces between chain links and removes oils and abrasive residues. Even resins are no match for its highly active formula. After a short time, MOTOREX BIKE CHAIN DEGREASER SPRAY evaporates completely, leaving a clean, grease-free drivetrain. Good to know: Immediately after cleaning, relubricate with MOTOREX CHAINLUBES or MOTOREX CHAINWAX. This restores necessary lubrication and corrosion protection—ensuring maximum service life.

Product attributes

- Excellent degreasing and resin removal
- Powerful dissolving action
- Evaporates without residue
- Universally applicable
- Optimal drying time
- Chlorine-free and rapidly biodegradable

Field of application

MOTOREX BIKE CHAIN DEGREASER SPRAY is suitable for the quick and effective cleaning of heavily soiled parts such as bicycle chains, chainrings, or cassettes.

Application

1. Spray MOTOREX BIKE CHAIN DEGREASER SPRAY directly onto the chain and other parts to be cleaned. Let it sit briefly and, if necessary, use a brush to remove heavy buildup.
2. Rinse the parts again if necessary until the cleaner runs clear, then dry all treated parts thoroughly.
3. If visible residues or remaining dirt are still present on the chain, repeat the process after the first ride.

Good to know: To prevent ground contamination, place a cloth or piece of cardboard under the parts you're cleaning. This catches any dripping dirt and keeps the area clean. Lubricate the cleaned chain immediately afterward with CHAINLUBE or CHAINWAX to prevent corrosion.
