- VDE/GS approval, safety category 2, CE
- dimensions: width 20,5 cm height 21,0 cm depth 33,0 cm
- weight: 3,0 kg

Food slicer pino² – left and strong

A sturdy, well and longtime proven construction renders stability and strength to this metal food slicer.

The food is held left-handed, an advantage mainly – but no only - for sinistrals.

The detachable carriage allows to also cut off larger pieces of food. The machine is equipped with a switch for intermittent and continuous operation, a food collecting tray and cable storage.

Food slicer pino² is driven by a 65 W eco motor, at 20% reduced power consumption but 50% increased engine efficiency compared to the previous model.

A smooth ham- and sausage blade is available for every ritter food slicer.

About ritterwerk:

ritterwerk was founded in 1905 by Franz Ritter. Since then the medium-sized company develops and produces household appliances which facilitate the everyday work in the kitchen.

The medium-sized company, headed by Michael Schüller, develops, designs and produces exclusively in Gröbenzell near Munich.

The company's philosophy 'made in Germany' not only stands for its production site in Germany. It also incorporates high quality standards, sustainability, appropriate materials as well as functional design, thus clearly following the 'Bauhaus' principles of the twenties.
