Symphony Twin TWS earphones

SKU: TEJZEARSYMPHTWSBTK

Twin TWS Earphones, Wireless V5.0, with call answer/end and music management keys and a 450 mAh charging base

SYMPHONY OF JOY AND EMOTION

The Symphony ***Twin TWS earphones*** represent the musical style from which they take their name: the resulting sound is clear, limpid, penetrating. The captivating power of the symphony orchestra is mixed with the syncopated rhythms and inventiveness that are typical of Jazz: this product is dedicated to all those who want to enjoy moments of pure relaxation with a sophisticated, high quality playlist.

RHAPSODY OF JOY

Rhapsody in Blue by Gershwin represents the highest expression of symphonic jazz: a perfect fusion of elements that coexist in harmony. The Symphony earphones follow this logic, combining a modern and persuasive design with an unbeatable sound . And comfort has not been forgotten: there are two silicon ear pads with headband included in the package.

The American composer's innovation provided the pure inspiration for this product. These earphones are based on **wireless V5.0 technology** which increases performance and significantly lowers power consumption. After pairing the Symphony earphones with your smartphone, you can listen to music or manage calls using the multifunction keys. You will be able to listen to your favourite songs from both earphones in **stereo mode** but, as soon as you receive a call, the earphones will go into **mono mode** .

CHARGING YOUR PASSION

Once the earphones' power level is exhausted, you can charge them on the stylish **450 mAh base** Inside the package there is also a cable for recharging the charging base itself through its Micro USB input.
