Feature Highlights

Perfect picture

- 37.5" curved ultra wide QHD display
- IPS technology and 100% sRGB color gamut

Free-Sync

- Support AMD Free-Sync technology to eliminate the screen tearing

Custom multiasking

- Boosting productivity, Picture-by-Picture (PBP), Picture-in-Picture (PIP) and multi-monitor setup through Daisy chain

Reduce fatigue

- EyeProtect's Flicker-less and Blue-light Filtering technology. Give your neck a break too, with very flexible tilt and height adjustments.

Usability enhancement

- Tilt -5°~ 35° and adjust vertically up to 130 mm
- Swivel +/- 30°

Curved 21:9

The curved screen puts every corner of the screen at the same distance from the customer's eyes, providing a uniform viewing experience. It also presents a more immersive experience with a wider field of view and increased perceived area of peripheral vision compared to a flat display of the same size.

AMD Free-Sync

Free-Sync technology is designed to eliminate the screen tearing that often occurs when playing computer games with a monitor. Now, with Adaptive-Sync technology, your GPU can tell a monitor what its rendering rate is and the monitor can match it.

In-Plane Switching

IPS (In-Plane Switching) technology, which is accurate across 178° presents a splendid quality in wide angles. On the screen, everything is crisp and clear from any angle.
