HERRMANS

H-TRACE DYNAMO

HERRMANS® H-Trace Dynamo rear light is one of the most energy-efficient dynamo lights on the market and the perfect choice when you want a good basic light. It has a modern and compact design with dual light sources, an angle visibility of 220 ° and visibility over 350 meters. The Herrmans H-Trace Dynamo rear light is available with stand light function.

Not all products are available in all markets. During continuous improvement specifications and design are changing. All values are nominal values. Illustrations do not necessarily show the design of every version and some features are version specific.

TECHNICAL DATA

Power Source	**Dynamo**
