

KATADYN POCKET TACTICAL - the high-class filter

PRODUCT CHARACTERISTICS

Technology:	Pump filter, ceramic depth filtration (0.2 microns = 0.0002mm pores)
Effect:	Eliminates bacteria, protozoa, cysts, algae, spores and sediments.
Output:	Approx. 1 l/min
Capacity:	Up to 50'000 litres depending on water quality
Weight:	Approx. 550 g
Dimensions:	24 x 6 cm
Material:	Aluminium, stainless steel, silicone, ceramic
Accessories:	Prefilter, bottle adaptor and carry bag
Article No.:	8020425 Katadyn Pocket Tactical

Series: Endurance

FACTS

- The first portable water filter - today a classic.
- Made from top-quality, durable materials. This is why the Pocket is suitable for the toughest of conditions and is the first choice for extreme adventurers like Mike Horn.
- The tried and tested ceramic depth filter removes bacteria, protozoa and other disease-causing agents. The principle: The micro-organisms cannot pass through the pores of the filter ceramic (0.2 microns) because of their size (greater than 0.2 microns = 0.0002 mm).
- Unlike disposable filters, the ceramic can be cleaned several times - even in the field.
- Improved, round pump handle for better ergonomics and an outlet hose which can be attached to water containers with a simple clip.

PRODUCT CHARACTERISTICS > BENEFITS

- Top-quality, durable materials > unparalleled quality
- Cleanable ceramic filter element > not only for clear but also for very cloudy water / can be used hundreds of times (not a disposable filter)
- Few movable parts > simple maintenance
- Long lasting > requires minimal maintenance
- Improved hand ergonomics > even easier to pump
- Measuring gauge supplied > indicates when the filter element should be changed

SHORT PROFILE

One of the best water filters. Unequalled in strength. For 1 - 4 people, long-term extreme use and trekking.
