

SANI 600 MIRROR WIFI

The Eurom Sani 600 Mirror Wifi is the perfect addition to your bathroom. Not only is this a nice infrared heating panel, it is also a mirror. Because the heating is in the mirror, your mirror does not fog up, and because the Sani 600 Mirror has a capacity of 600 Watts, your bathroom will also be wonderfully warm.

Using the Sani 600 Mirror Wifi is easy. You can easily set the temperature with the control panel in the mirror. Would you rather not switch the panel on and off every time? Then set the handy weekly timer via the app.

Product number	350432
EAN	8713415350432
Powered by	electric
Power	600 W
