Vertical Ergonomic Mouse

Prevent and alleviate long-term repetitive stress injuries!

DESCRIPTION

The Ewent EW3156 Vertical Ergonomic Mouse is a good solution for many people who spend more than a few hours per day on a computer. Many common symptoms of hand/mouse related strain are prevented and reduced by using this ergonomic mouse. The vertical design of the mouse allows you to work comfortably with a more natural grip.

Optical precision and scroll wheel

You can now enjoy optical precision with 1000 dpi. Fitted with five buttons and a scroll wheel, the mouse supports all common functions.
