USB2.0 LPR Print Server

The palm sized USB LPR Print Server allows any networked computer to share a USB LPR printer. It complies with USB 2.0 specifications (backward compatible with USB 1.1 spec.), and provides users with an auto-sensing Ethernet port that works with either 10Base-T or 100Base-T networks. This unit also supports multiple operating systems, and it integrates network Printing Protocol in this print server to allow users to print from any computer over a home or office network. When connecting USB LPR Print Server to a wireless router, users can print content wirelessly.

Specification:

- Easily connect your printer to a network
- Allows multiple computers to share one USB printer on the network
- Print from any computer on your network
- Supports DHCP Client and multiple network protocols
- 10Base-T/100Base-T auto-sensing
- Supports Windows 2000/XP/Vista/7/8 and MAC OS X Bonjour
- Supports Windows Utility and Web Management software

Package Content:

- 1 x USB LPR Print Server
- 1 x User Manual
- 1 x CD
- 1 x Power adapter
- 1 x Ethernet Cable
