Overview

Description 25 Word

Extend the lower temperatures of your custom cooling loop to a high-speed M.2 SSD with the CORSAIR Hydro X Series XM2 M.2 SSD Water Block, reducing thermal throttling for sustained fast data speeds.

Overview

Description 50 Word

Extend the lower temperatures of your custom cooling loop to a high-speed M.2 SSD (2280) with the CORSAIR Hydro X Series XM2 M.2 SSD Water Block. A copper cold plate helps reduce thermal throttling for sustained faster read/write speeds. The XM2 is easy to install to a Hydro X Series custom cooling loop with its two standard G1/4" thread connector fittings.

CORSAIR Hydro X Series XM2 M.2 SSD Water Block (2280)

Features

Style 1
- Unlock the full potential of your high-speed M.2 SSD by adding it to a Hydro X Series custom cooling loop, lowering its temperatures and reducing thermal throttling. - A high-performance copper cold plate efficiently draws heat away from your SSD. - Installs quickly on compatible M.2 SSDs (2280) and connects easily to your loop with two standard G1/4" thread connector fittings (not included).
Style 2
Unlock Your SSD's Potential: Add your high-speed M.2 SSD to a Hydro X Series custom cooling loop, lowering its temperatures and reducing thermal throttling. Exceptional Cooling: A high-performance copper cold plate efficiently draws heat away from your SSD. Easy and Fast Installation: Installs quickly on compatible M.2 SSDs (2280) and connects easily to your loop with two standard G1/4" thread connector fittings (not included).

Tech Specs

Product Type	M.2 Water Block
Cooling Warranty	3 years
Cold Plate Material	Copper
Fluid Chamber Material	Nylon
SSD Compatibility	M.2 NVMe 2280 form factor
Compatible Materials	Only mix with other copper / brass products
Compatible Coolants	CORSAIR XL or equivalent
Port Thread	G1/4" BSPP
Max Operating Temperature	60°C coolant temperature
Thermal Material	Pre-applied thermal pads
Color	Black

Box Contents

- XM2 SSD Water Block
- Mounting clip
- Quick Start Guide
