

BAKING & GRILLING OVENS

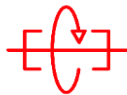

with rotisserie & circulating air

The "ECO" oven series – versatile, efficient, economic

ROMMELSBACHER

Baking, roasting, grilling & more - the mini ovens of our „ECO“-series bring cooking fun to the smallest kitchen. Whether in single and students apartments or in the office or holiday home, the elegant mirror glassed front make them a highlight everywhere. These ovens convince by high functionality and a wide range of possibilities for use. They are working particularly efficiently and economically (up to 50 % energy saving compared to conventional built-in ovens of efficiency class "A"!), so sustainability is also taken into account. The oven can be operated with numerous combinations of upper heat, lower heat and circulating air. Thanks to the stepless temperature control, the oven chamber heats up very quickly and is perfect for preparing roasts, gratins and cakes. Additionally, there is a rotisserie set for grilling roast and chicken on a spit. The cleaning of the compact and easily accessible interior is extremely simple due to the detachable inner pane and the non-stick coating. Well thought-out technology, energy-efficient construction, practical accessories as well as an attractive design make the ovens versatile kitchen aids you do not want to miss in your household.

Technical data:

Type: BGS 1400

- 230 V ~ 1380 W, silver/mirror glass
- 22 litre oven chamber, for baking tins up to 250 mm Ø
- 60 minute timer
- EAN: 40 01797 274007

Type: BGS 1500

- 230 V ~ 1500 W, silver/mirror glass
- 30 litre oven chamber, for baking tins up to 280 mm Ø
- 120 minute timer
- EAN: 40 01797 274106

- non-stick coated oven chamber with three shelf levels
- with motor-driven rotisserie spit for chicken and spit roast
- 6 functions for optimal use: upper / lower heat, upper / lower heat with circulating air, upper heat with circulating air, lower heat with circulating air, upper heat with spit, defrost level, 4 stainless steel heating elements, stepless temperature control up to 230 °C
- energy saving and efficient by oven door with double glazing and special coating as well as double-walled casing with heat insulation
- easy to clean by non-stick coated oven chamber and detachable inner pane
- safe handling by illumination of baking chamber and pilot lamps
- accessories: enamelled roasting/baking tray, grill grid, crumb tray, rotisserie set
