BREEZE

SONNENKÖNIG OF SWITZERLAND

## FACTSHEET : BREEZ - Table fan

Pamper yourself with BREEZE. Bring a fresh breeze to your stuffy office, your conservatory or next to your ironing table. The **adjustable tilting angle and speed settings** allow you to achieve an optimal air distribution with BREEZE – and all **"as quiet as a whisper"** (less than 30 dB). With cutting-edge technology and a power consumption of only 30 watts per hour, BREEZE is a **clear winner in eco tests!**

Thanks to its reversible air outlet, the BREEZE fan can be used at any time of year. In summer, the air can be expelled upwards, producing a cool, fresh feeling. In winter, it produces a pleasant warmth in the whole room by drawing the rising warm air back down.
